VICTORIA, B. C., WEDNESDAY, AUGUST 31, 1910.

## REVENUE STILL KEEPS MOUNTING

### OVER MILLION INCREASE IN AUGUST CUSTOMS

Ever Since Year Began in April  
the Collections Have Greatly  
Exceeded 1909

(Special to the Times.)

Ottawa, Aug. 31.—Canada's customs revenues continue to increase. In the five months of this fiscal year, April to August, it amounted to \$29,091,605, a betterment of \$5,747,994. For August alone the collections totalled \$6,479,795, a betterment of \$1,339,333.

#### ARBITRATION BOARD.

Troubles Between Winnipeg Builders  
and Workmen Will Be Heard.

(Special to the Times.)

Winnipeg, Aug. 31.—The arbitration board in the trouble between the builders' exchange and masons and bricklayers will meet in private. Controller Waugh has been selected as chairman. Aldermen Cass and Wilson and W. A. Irish representing the exchange; International Vice-President Greaves, E. S. Jackson and W. H. Lovat representing the union. Meanwhile, as the international body has not authorized the men to go to work on the Lyall-Mitchell contract, the lock-out continues.

#### CRUSHED UNDER ENGINE.

(Special to the Times.)

Kenora, Ont., Aug. 31.—Laurence Saumer, 55, Canadian engine-dumper, was sitting in the ash pit under an engine on Tuesday afternoon when another locomotive came up behind, moving the engine over Saumer several feet. The engine passed over Saumer's shoulders, crushing and killing him immediately.

## MAPLE LEAF CANADA'S EMBLEM FOR LONG TIME

Chaplain of Red River Expedition  
Mentions its Use as Far Back  
as 1858

(Special to the Times.)

London, Eng., Aug. 31.—Stewart Paterson, senior chaplain of the Red River expedition of 1870, writes to the press that the maple leaf was the recognized emblem of Canada long before 1850, the date claimed for its first recognition. At the initiative of the late Dr. Richardson, of Toronto, he, as secretary of the Patriotic Association of Peterborough, in 1859 designed a badge on which there was a wreath of maple leaves. He also wrote verses mentioning the maple leaf and ranking it with the rose, shamrock and thistle.

#### WHIRLED AROUND SHAFT.

(Special to the Times.)

Edmonton, Alta., Aug. 31.—Burt Wendall, employed at P. Anderson & Co.'s brickyard in Strathcona to look after the belting and machinery, was caught in the shafting yesterday and whirled round at a fearful velocity. The force of his body broke a six-by-two and an eight-by-two plank and two one-inch steam pipes. The coroner's jury found death due to being caught in an improperly safeguarded shaft.

#### "TOO CHUMMY WITH SINNERS."

Complaint Made by Congregation Against  
Their Pastor.

(Times Leased Wire.)

Dayton, Wash., Aug. 31.—Rev. W. H. Harris, for three years pastor of the First Christian church, quits today because he has been "too chummy with sinners," and members of his congregation complained that he dressed "too much like a travelling man." Harris has doubled the membership of the church since he came here, and is already overwhelmed with offers. He will accept a call to Walsburg.

## NATIONAL'S CHALLENGE TO BE CONSIDERED

Minto Cup Trustees Will Act in  
the Matter—May Play Next  
Month

(Special to the Times.)

Ottawa, Aug. 31.—The Nationals will know definitely in a day or so whether or not their challenge for the Minto cup will be accepted. In a letter from President Lecroix to-day the Nationals' leader asked for dates for the famous trophy, suggesting September 17 and 24 for the series.

P. D. Ross, the Ottawa representative of the board of trustees, is now in communication with the other trustees as to their views on the Nationals' challenge. Unless the latter find some grounds for objection, the Nationals will be allotted dates at once, and New Westminster will be ordered to defend the trophy this fall.

## BUILDING RECORD A FINE ONE

### AUGUST MUCH AHEAD OF PREVIOUS SEASON

Over Two Hundred Thousand  
Dollars Value of Permits  
Issued

Building permits for the month of August which close to-day will amount to approximately \$216,938, the amount in the building inspector's office at noon to-day. August, a year ago, the permits amounted to \$141,640. This year shows an increase of \$75,298.

Permits were taken out this morning for the Mount Edwards apartment house, to be erected on the corner of Vancouver and Court street, and for a warehouse for R. P. Rutherford & Co., Dallas road.

The apartment house permit provides for a structure of three stories, containing 120 rooms and the cost is \$65,000. The warehouse on Dallas road will cost \$13,398 and will be two stories in height, constructed of brick, concrete and stone.

#### LOSES WHAT HE EARNED.

Good Conduct Convict Makes Futile  
Attempt to Escape.

(Special to the Times.)

Fort Saskatchewan, Alta., Aug. 31.—Chas. Landon, alias Chas. Ryder, a convict in the penitentiary serving a seven-year term for stealing, made a break for freedom yesterday afternoon, but was soon afterwards rounded up by the mounted police. In pursuing him Corporal Marshall's horse fell, breaking its neck. Landon was an exemplary prisoner, who was sentenced in 1907 and has earned by good conduct remission from his term, up to the present, over two hundred days. He will now lose this.

## HON. C. S. HYMAN INJURED.

His Automobile in Head-on Collision  
With Street Car.

(Special to the Times.)

London, Ont., Aug. 31.—Hon. C. S. Hyman, who was injured when his auto collided head-on with a street car, spent a very restless night and his attending physicians fear internal injuries, but are of the opinion that they may not prove serious. Mr. Hyman lost two teeth and sustained cuts about the head.

#### RIOTING AMONG STRIKEERS.

Bilbao, Spain, Aug. 31.—Following a vote by the labor federation here to join in a general strike, rioting began in the mining regions and the mine owners demanded that troops be sent here to preserve order.

The miners at present have matters all their own way, and the owners will be forced to accede to the demands of the strikers unless laborers are imported into the district and given protection by troops.

#### SWIMMING THE CHANNEL.

Dover, England, Aug. 31.—Edward Meyer, a Hollander, started to-day to swim the English Channel. He was accompanied by several assistants in a rowing boat and predicted that he would successfully make the endurance-testing journey.

## LITERARY FAILURE MADE HER DESPONDENT

Identification of Young Girl Who  
Attempted Suicide in New  
York Reveals Her Story

(Times Leased Wire.)

New York, Aug. 31.—Identified as Vera Fitch, daughter of a late colonel in the United States army, the beautiful young girl who shot herself at the Hotel Astor is dying at the Flower Hospital. The physicians assert that she cannot live 24 hours. She was in great pain all night, and although half delirious, continued to deny her identity.

Mrs. Henry Fitch positively identified the suffering girl as her daughter. In spite of this Vera continued to refuse to give her name and moaned: "My people are self-respecting; do not bring them into this."

Miss Vera Fitch formerly lived in San Francisco with her sister, Mrs. Grace Conger, wife of Roy Conger, a nephew of the former minister to China, Edwin H. Conger. The family lived in East Oakland, removing to New York shortly after the death of Colonel Fitch.

Mrs. Conger, at her Broadway home, to-day at first denied that the girl in the Flower hospital was her sister but later admitted that she was. "You cannot blame me for trying to deceive," she said. "My sister is young and I wanted to protect her."

Vera's friends say that most of her troubles were imaginary. She was very ambitious to become a literary light but was easily discouraged. She wrote short stories which she was unable to sell, and therefore judged that everyone was against her. Her relatives say she had been despondent for some time.

CAUGHT!

## WAGE EARNERS ARE UP IN ARMS

### LABORERS DISPLEASED AT COUNCIL'S ACTION

Special Meeting of Union Sum-  
moned for Friday Evening  
Next

Interesting developments are anticipated to follow a special meeting of the Victoria Laborers' Protective Union which has been summoned for Friday evening next at Labor hall. The notices calling the meeting set forth that the business to be considered is "the action of the mayor and council."

To the unionist, this does not make clear the real purpose of the meeting, so it may be explained that "the action" refers to the manner in which the members of the streets committee of the council side-tracked the petition of the union for an increase in wages, which was presented a couple of weeks ago.

On the matter first coming before the committee it was without debate referred to the city engineer for report. The latter made a recommendation to the committee at last Friday evening's meeting of the council committee which read as follows:

"The Laborers' Protective union suggests the following schedule of wages: Responsible foremen, \$4.00; engineers, \$2.50; blacksmiths, \$3.50; rock drillers, \$3.00; laborers, \$2.75. The rate of wages in the city at the present time varies from \$2.25 to \$5.50 per day for the classes of labor mentioned above.

"The average wage for each class of work is as follows: Responsible foremen, \$3.50 to \$5.50; engineers, \$3.50; blacksmiths, \$3.50; rock drillers, \$2.75; laborers, \$2.50. The men engaged on the water works receive on an average 25 cents per day less than the pay on other works. The prices suggested by the labor union are approximately 50 cents a day higher than those paid by the water works, and approximately 25 cents per day higher than those paid other corporations."

"While I am not as conversant as some of the members of the committee with the difference in the cost of living at the present time and in former times, I believe that the prices suggested by the union are reasonable, especially if prices are to be taken for the standard for first-class men in each class of work."

Mayor Morley and a majority of the members of the committee refused to accept the report of the city engineer, taking the position that there was no necessity of stipulating a standard wage, and the matter was disposed of by leaving the whole question of what wages should be paid in the hands of the engineer.

## QUEEN'S OWN GET WARM WELCOME

TORONTO'S CRACK CORPS  
COMPARED WITH REGULARS

Officers and Men Deluged With  
Invitations—London Wants  
to See Them

(Special to the Times.)  
London, Eng., Aug. 31.—Criticism of the Queen's Own Rifles of Toronto are all cordial. They compare favorably with the regulars in physique and their drill, although not perfect, is very good. Appreciation is expressed of the initiative displayed by section commanders, which promises well for the coming staff of manoeuvres with British troops.

General Lawson, at the conclusion of yesterday morning's drill, said he was quite satisfied with both the promise and the performance of the Canadians. An eight-mile march was performed in crisp style.

A cordial relationship has been established with the regulars. The officers' mess of the Q. O. R. is flooded with offers of membership from various clubs and messes. Challenges to athletic contests, including baseball and cricket, have already been exchanged. Londoners want the regiment to march through the city, followed by a Lord Mayor's reception. The soldiers are assured of a great welcome if this can be arranged.

## LORD ESHER PREDICTS NEED FOR COMPULSION

(Special to the Times.)

London, Aug. 31.—Lord Esher, one of the leading authorities in the British army and heretofore a consistent supporter of the volunteer system, in an article printed to-day, says that he feels the days of the volunteer are numbered, and that the time may come for compulsory service in the army. The lack of necessary recruits for the territorial force, which War Minister Haldane established on the advice of Lord Esher, is responsible for his lordship's change of view.

## TACOMA TRACKS ARE TORN UP

### FAILURE TO OPERATE DOUBLE LINE CAUSE

Public Works Department Insist-  
ing on Company Living Up to  
Agreement

(Times Leased Wire.)  
Tacoma, Wash., Aug. 31.—Damage suits against the city are liable to follow the wrecking of the Tacoma Railway and Power Company's track in Cliff avenue by a crew from the department of public works early yesterday. Because the company operated only one track of a double line on the avenue the city commissioner ordered the removal of the unused track within 30 days.

The time limit expired Monday night and before daylight Tuesday a crew of men under the direction of Commissioner of Public Works tore up several blocks of track. Litigation is liable to follow over the fact that the track destroyed was one over which the company was operating its cars, and not the one ordered removed by the commission.

Wood said to-day that if the street car company attempts to re-lay the track he will have a crew on hand that will throw the traction men into the bay.

Officials of the car company declare that the city has violated the terms of the franchise granted to the Pacific Traction Company, a subsidiary of the Tacoma Railway and Power Company, on Cliff avenue.

Cliff avenue skirts a high bluff overlooking the sound and several attempts have been made to force the street cars off to make room for a scenic driveway.

## STAGE HELD UP.

Long Highwayman Robs Passengers in  
Washington Hills.

(Times Leased Wire.)  
Ash, Wash., Aug. 31.—Sheriff Knox, with several deputies, is hunting through this district to-day for a long highwayman who held up the Mineral Creek stage near Ash last night, relieved four passengers of their watches, jewelry and \$150 in cash, and escaped into the woods.

The hold-up occurred in the heavy timber half a mile from here. There was only one white passenger on the coach, two of the victims being Chinese who were going to the sanatorium as cooks, the fourth man being the driver.

The highwayman jumped from behind a tree, at the same time conveying the driver with his gun, and ordered the other three men to line up with their arms above their heads and backs turned toward him.

PRINCE ALBERT, SASK., Aug. 31.—George Perrett, of Duck Lake, is in jail here, having been committed for trial on a charge preferred by a young Galician girl of assault a week ago. Sunday while she was on her way to church.

## SIR WILFRID PLEADS FOR BROAD CANADIAN SPIRIT

Gets Splendid Reception at Cranbrook—Sets Mark  
of Approval on M. A. Macdonald—What  
Government Did for the Kootenay

(Special to the Times.)

Cranbrook, B. C., Aug. 31.—Sir Wilfrid Laurier, at the rink meeting in Cranbrook yesterday afternoon, set his mark of strong approval on Malvern A. Macdonald, a young Liberal politician of Cranbrook. Mr. Macdonald was the Liberal candidate in Cranbrook for the British Columbia house at the last election and was defeated by Tom Caven.

Hon. Wm. Templeman, in his address, suggested to the people of Cranbrook that Mr. Macdonald be again the candidate in the constituency for the local house. The Premier stated that he had something better to suggest.

"Here and now," said Sir Wilfrid, "let us nominate Mr. Macdonald as the standard-bearer of the party in the next federal campaign." (Cheers.)

Sir Wilfrid, in his address at the rink, spoke of political methods which had been used in British Columbia during the last campaign, referred to a forged telegram episode, and stated that at that time it had been argued that the country would be overrun with Asiatics who would be brought to the country to build the National Transcontinental. The Asiatics had not made their appearance and, in fact, the number of Orientals entering the country had never in recent years been less than it has been in the past two years.

Reference was made to the construction of the Crow's Nest Pass Railway, and to the aid which the Dominion Government had given to that road amounting to three and a half million dollars, which had been the means of building up the Boundary country.

Referring to the clause in the civic

address which had welcomed him to the Kootenay, Sir Wilfrid expressed the hope that in coming years less would be heard of the west and the east and more people would speak of the Dominion as a whole.

The town was decorated for the occasion of the visit and a large crowd with a band met the party at the depot, where the civic address was read by Mayor Fink. Reference was made in the address to the need of a new postoffice. The appropriation for this building had been made but an early commencement of the work was asked.

From the depot the party was taken to the rink in a number of automobiles, and addresses were given by Hon. Wm. Templeman, Hon. Geo. P. Graham, Ralph Smith and the Premier.

Speaking on the tariff Mr. Graham stated that there were twenty-three shingle and saw mills within a very short distance of Cranbrook, and that without doubt they were all desirous of protection for their goods. The farmers of the prairies, on the contrary, were asking for free trade. Regarding Oriental immigration, Mr. Graham stated that in spite of all that had been said in the matter no Asiatic labor would ever be employed on the construction of the G. T. P.

Mr. Templeman maintained that although there were but two Liberals in the legislature of the province the province was in sympathy with the Dominion administration at the present time.

Two special trains were run into Cranbrook for the occasion and there was added service on the regulars. Trainmaster John Kennedy of the Canadian Pacific is accompanying the special of the Premier over the district.

#### EVANGELIST WEDDED.

Providence, R. I., Aug. 31.—Dr. Wilbur Chapman, the noted evangelist, and Miss Mabel Cornelia Moulton, daughter of Mrs. Ruth W. Moulton, are today spending a quiet honeymoon here. They were married yesterday at the home of the bride's mother. Many of Dr. Chapman's co-workers in the evangelical field attended the ceremony.

#### JUMPED TO HIS DEATH.

Salt Lake City, Utah, Aug. 31.—David S. Murray, former manager of the Rocky Mountain Bell Telephone Company, jumped from the roof of the Desert National Bank building here to-day and was instantly killed. He leaves a widow and child in San Francisco. Murray had been escorted to his room in the building by a policeman, who believed him under the influence of intoxicants. According to the police, Murray left his room, climbed through a skylight opening in the roof and leaped to the street.

#### TRIBUNE NOT FOR SALE.

Chicago, Aug. 31.—The Tribune, in an editorial to-day, announced that it had not been sold, and that it is not for sale. The Tribune denied recent stories that the paper had been purchased by John D. Rockefeller and J. P. Morgan. This nonsense was started by stand-outters, who stated that three or four newspapers represent the entire Western insurgency, concludes the editorial.

## INDIAN DESPERADO BREAKS FOR LIBERTY

Mounted Police Have to Shoot  
Him Down to Prevent  
a Massacre

(Special to the Times.)

Prince Albert, Sask., Aug. 31.—Joseph Blackhand, a Sioux desperado, is in the Victoria hospital with a mounted police assistant as a nurse to care for him.

Blackhand was two weeks ago sentenced to a year in jail for horse-stealing by a Duck Lake court. While waiting for the train the Indian went under guard to the lavatory, escorted by Special Constable Lavolette. Near by was a fence, and taking a running start, Blackhand scaled it and got away. Saturday he was located on the reserve on Duck Lake. Sgt. Reeves, Constables Dorian and Lavolette made a light march to the reserve, arriving about daybreak, and started a search.

Sunday, as they lifted a blanket, Blackhand rolled out under the canvas side of the tepee and started to run. The police pursued and challenged the Indian to halt, and as he continued, Constable Dorian fired twice over the desperado's head, and with the third shot shattered his left arm.

The Indian stumbled several times. He doubled back, and as he fell he was captured. The man, who called himself Almighty Voice, is a crack shot and a descendant of the Indian band which participated in the Custer massacre. He had bragged he would never be taken alive, and was within a few feet of the place where he had concealed his repeating rifle and knife when brought to earth. It is hardly to be doubted that had he reached his arms unharmed there would have been a tragedy.

## FANATICS' FAST IS DEATH TO THREE

Fourth Member of Frenzied Quar-  
tette is Not Likely to Re-  
cover

(Times Leased Wire.)

Los Angeles, Cal., Aug. 31.—Mrs. Nellie Boyle, one of the quartette which fasted 40 days in a frenzy of religious fanaticism, died to-day at the county hospital. She had gone without food as long as when the fast was broken about ten days ago her stomach was too weak to assimilate food.

Mrs. Boyle is the third of the four fasters who died. The Rev. John Irving O'Neill, who claimed to have been pastor of a Dallas, Texas, church, was the first to succumb. The death of Alice O'Neill Griffin, 15 years old, followed last week. The survivor is James Butler, but his condition is so critical to-day that it is believed he cannot recover.

"The fasters were members of the Holy Roller sect. They were found in a cottage on the outskirts of the city by neighbors after they had become so reduced by their abstinence that they could not walk. They claimed they were fasting in order to purify their bodies for entrance into heaven."

#### TEMPERANCE CONGRESS.

(Special to the Times.)  
Quebec, Aug. 31.—The first temperance congress of the diocese of Quebec opened here this morning. Mr. Beagin, Mr. Justice F. X. Lemieux and Hon. T. C. Chapais are in attendance.

#### DEAD IN HIS BARN.

(Special to the Times.)  
Methuen, N. B., Aug. 31.—Siegfried Boucher, 88 years of age, was yesterday found dead in his barn. An inquest will be held.

## STATE'S SHARE OF LUCKY BALDWIN'S VAST ESTATE

Quarter of a Million is Inheritance  
Tax Which California  
Receives

(Times Leased Wire.)

Los Angeles, Cal., Aug. 31.—Following the completion of the appraisal of the estate of Elias J. (Lucky) Baldwin, it is announced to-day that the state will receive from it the greatest inheritance tax ever paid into the treasury. The report of the special appraiser, James H. Faulkner, has been filed in the probate court, showing the estate to consist of \$1,135,372 in real estate and \$349,342 in personal property. After deducting \$413,372, the amount of mortgage on the property, the total value of the estate is given as \$7,350,000.

Judge Rives has ordered the executor of the estate, H. A. Urrah, to pay the state \$347,000 inheritance taxes, which is said to be more than \$100,000 larger than any previous tax paid in California.

**JAPAN FEARS  
"WHITE PERIL"**

**STATEMENT BY BISHOP  
HONDA IN PORTLAND**

Delegate of Japanese Methodists to General Conference Discusses Eastern Conditions

Portland, Ore., Aug. 31.—More than Americans fear the "yellow peril," the Japanese fear the "white peril," is the statement of Bishop Honda, of the Japanese Methodist church, while in Portland today.

"The Japanese fear that the white race, small in numbers, but dominant in desire to rule, plans usurpation of territory in Japan and China," said Bishop Honda.

Besides being head of the Japanese Methodist church with a district 2,000 miles long and with headquarters in Aoyama and Tokyo, Bishop Honda is a close student of Oriental affairs. "China," he said, "is on the verge of revolution. There are 400,000,000 people there, but they are not united. Only the interference of the powers has prevented an uprising long before. At the same time it is like one province would fight against another. They are like different nations."

**JUDGES RESENT THE  
ROOSEVELT ATTACK**

Strictures on Supreme Court of U. S. Not Approved by Bench or Bar

(Times Leased Wire.)

New York, Aug. 31.—"It is safe to assume that Col. Roosevelt's attack on the courts in his speech before the Colorado legislature is not approved by the Bench and Bar and few thoughtful people throughout the country," said Judge Alton B. Parker, former candidate for the presidency on the Democratic ticket, today. "Thoughtful people appreciate the importance of the judiciary and the necessity for its continuing to exist in public confidence in its to remain intact."

Judge Parker, who wrote the opinion in the New York bakeshop case; recited the history of the case.

"Every judge and every court gave the case its best efforts," he said. "This fact should be sufficient to protect the greatest court in the world from offensive criticism from any source, and especially from one who heretofore has manifested dissatisfaction with the departments of the government which, in performing independent functions so as not to encroach on co-ordinate departments did not allow them to encroach on it."

TOOK SOLID GOLD.

Earned it in Alaska on Railway Construction.

Seattle, Wash., Aug. 31.—J. A. Magill, the prominent labor agent, stated today that more than 1,000 laborers have returned to "civilization" through Seattle during the past fortnight, each one bringing from \$750 to \$2,000 earned in railroad construction work in Alaska during the past year or two. These men cash their checks in Seattle for gold coin and deposit the latter in safe deposit vaults, preferring to handle the actual gold after the long days of hardship in the north.

Richard Ryan, chairman of the Victoria Trades and Labor Council's committee in connection with the proposed celebration of Labor Day, states that no organized demonstration will be carried out, as a large proportion of the union workers will take advantage of the day to visit the mainland.

**COMMISSION SITS  
HERE TO-MORROW**

**RAILWAY BOARD TO  
HEAR LOCAL COMPLAINTS**

Questions Affecting E. & N. Railway Bridge and Mary Street, Victoria West

A sitting of the railway commission will be held in this city to-morrow for the purpose of hearing any presentation which may be made to them on behalf of the city or any public body in Victoria. J. P. Maybee is chairman of the committee. R. Marpole, general executive agent for the western division of the C. P. R., J. McMillen, K. C., solicitor, and F. W. Peters are in the city to attend the sittings of the commission.

Two important matters are to be brought before the commission by City Solicitor McMillen, on behalf of the city council—the question of the availability of the swing bridge maintained by the E. & N. Railway Company over the harbor at the foot of Johnson street for pedestrian traffic, and that of the opening up of Mary street, Victoria West.

In regard to the railway bridge, at the last session of the commission in Victoria an order was made that a temporary footway should be provided, until such time as the company chose to put up a new and improved structure. According to statements made by C. P. R. officials at that time the company contemplated doing away with the present bridge, but the date of such improvement would hinge to a large extent on the settlement of the Songhees Indian reserve problem.

The question of the opening up of Mary street is much the more pressing problem of the two, as will be seen from the following report of the city engineer, submitted to the city council a few weeks ago:

"The Old Esquimalt Road Crossing.—I have lately become acquainted with some of the facts in connection with this question, and I believe that the reasonable convenience of the public clearly requires this street to be opened for public traffic. At the present time the crossing is a mere stile for foot-passengers, and the city of Victoria should have a public crossing. The plans show that Wilson street crosses the railway at the point in question as a public highway, and continues westerly to the Old Esquimalt road, west to the city limits. The order of the railway commission, dated March 16th, 1909, does not limit the time for the carrying out of the order, yet I believe that it is in the best interests of the city that the crossing be opened immediately, and that the other portions of the order be carried out. "It would appear from correspondence in the city engineer's office that it was the intention to improve Wilson street or the Old Esquimalt road from Point Ellice bridge westerly to the city limits, crossing the E. & N. railway at the point in question, to charge the cost of the work as a local improvement against the properties benefited. I can find no record of the initiation of such local improvement, and I would recommend that the crossing be opened and made convenient for the public. "This will require some grading and the removal of some rock adjacent to the crossing, and in addition the carrying out of the other orders of the commission, namely, the removal of all standing trees adjacent to the crossing, so that a clear view may be had of the railway towards the city, and that the city make arrangements to prevent any buildings being placed on the lots opposite to the lot on which the trees are standing, so that the view will not be obstructed by the trees. The railway company to do all necessary grading and planing, the city to maintain it afterwards. The railway company also, at its own expense, to remove all the buildings near the right-of-way, the one which is most remote being within 100 feet of the right-of-way." At last Monday evening's meeting of the council City Solicitor McMillen introduced a by-law providing for the expropriation of the land adjacent to Mary street, which he proposed to the commission ordered should be acquired and cleared of all trees in order that the crossing of the railway crossing shall permit an unobstructed view to the men operating trains.

The corporation of the city of Victoria will also at this session of the commission present an application for an order compelling the E. & N. Railway Company to proceed forthwith with the construction of a new bridge across the harbor to replace the present structure, the same to be of steel and of the most modern type.

**FINANCE MINISTER  
SAILING FOR HOME**  
(Special to the Times.)  
Ottawa, Aug. 31.—Hon. W. S. Fielding is sailing to-morrow from Liverpool and his home-coming is of particular interest in view of the promised reciprocity negotiations. The minister will likely go to New Scotland for a short time, but it is expected that the proposals between the Canadian and American governments will be taken up without delay.

It is believed here that the attitude of the Taft administration will be very considerably influenced by the outcome of the fall elections in the United States, in which the tariff promises to be a prominent issue.

The president's declaration in regard to further revision of the tariff on specific lines is viewed as indicating a recession from the "stand pat" attitude which has always been an influence against any reciprocal arrangements. While preliminary correspondence is likely to be exchanged and possibly conference arranged for definitely it is not thought probable that any decision will be reached.

**OFFICERS OF NIOBE  
ARE APPOINTED**

Their Tenure Will Begin on September 6—First Canadian Naval Staff

Ottawa, Aug. 31.—The following appointments for the Niobe have been made: Commander, W. B. Macdonald; lieutenants, H. H. Deburgh, H. L. Street, C. White (retired), E. A. E. Nixon (retired), S. H. Morris, Lord Alastair, M. Graham, F. M. Law; acting sub-lieutenants, E. G. Halliwell, Canadian naval forces; engineer lieutenants, Canadian naval force, P. D. Church, T. H. Warde, W. E. Horton; surgeon, K. Digby Bell; staff paymaster, J. S. Annesley; assistant paymasters, J. N. Fletcher, T. M. Fitzgerald; gunners, G. D. Graver, W. Phillimore; instructors, A. H. Jenkins, R. E. Reiss Smith, A. B. Lean; carpenter, S. G. S. Marrell; boatswain, F. Evans; artificer and engineer, E. Cox.

All the foregoing appointments will date from September 6.

## CONFERENCE IS BROUGHT TO CLOSE

METHODISTS ADJOURN AFTER LONG SESSION

Stirring Scene at Metropolitan Church Last Evening—Concluding Business

With prayer led by Rev. Dr. Carman, the venerable head of the church, the General Conference of the Methodist church of Canada, which has been in session at the Metropolitan church for the last two weeks, concluded its labors and adjourned shortly after 11 o'clock last night.

At the time of adjournment there were not more than fifty delegates in the auditorium, and the galleries were entirely deserted by visitors, who had well filled them at the opening of the concluding session. All through the evening—one by one and two by two they went the rounds shaking hands with their friends and acquaintances and then leaving the conference church for the night boat which will convey them on the first part of their journey to their various and scattered homes.

It will be another four years before such a gathering will come together again, and before that time comes around there will be many changes in the personnel of its members.

"Now brethren," said Dr. Carman in his concluding remarks before closing the meeting with prayer and the singing of a hymn, "We have met together for the last two weeks in this church, by the marvelous mercy of God, in the good fellowship of work and labor in his vineyard, and have done our best in the fear and love of God. The time has now come when we adjourn."

Among the concluding features of the work of the General Conference was a report of the temperance, prohibition and moral reform committee and a message of loyalty which is to be sent to King George V. The message carries his Majesty's of the loyal devotion to his person and throne of the million and a quarter Methodists in the Dominion and the earnest and prayerful desire of the conference that he will do all in his power towards building up a righteous and God-fearing nation in the northern half of this continent as an integral part of a great and united British Empire.

Racetrack gambling, a problem which is described as having become more acute through growing wealth and luxury and the outlawing of the business of bookmaking in New York and other states of the adjoining republic, has been strongly condemned. Attention is drawn to the Miller bill and it is greatly regretted that owing to the opposition of the minister of justice the bill failed to secure a majority in the House, and as a result a compromise bill was accepted. This bill it is stated while reducing and restricting the evils of the racetrack in various ways fails to adopt the principle of outlawing racetrack gambling as a business. The moral reform department of the church has been instructed to maintain the agitation and insist that professional gambling on racetracks be prohibited by act of parliament at the earliest possible date.

Dealing with the white slave traffic, its abominations and menace are described as awakening the conscience of Christian states to the necessity of a curse. It is pointed out that the equally infamous and diabolical methods employed in its behalf have been brought into the white light of exposure. Against this traffic the conference urges the most solemn warnings, the circulation of literature which exposes its methods, and the vigorous enforcement of law against offenders. In this connection the utter insufficiency of the penalties provided are quoted and a considerable increase in these is demanded. It is pointed out that the maximum penalty should be not less than ten years with hard labor.

The conference expresses its grave disapproval of the practice that is obtaining in several places in the west

of employing Indians for purposes of exhibition in connection with agricultural and other shows, as productive of unsettling and demoralizing effects upon them, and urges that the department of Indian affairs should be asked to interfere and employ such counsel and other methods that may be deemed needful to repress the practice.

Among other recommendations of the temperance committee adopted unanimously by the conference is a protest against the permission of the sale of liquors in officers' and sergeants' messes in property under the control of the militia department of Canada.

Owing to the explanation made by Chancellor Burwash no action has been taken in the case of Skill and King, the Toronto firm of publishers sentenced for selling obscene literature. Dr. Burwash stated that he had information that King alone was implicated in the crime and that Skill, the senior partner, knew nothing whatever of it. On the strength of his knowledge Dr. Burwash stated that he had petitioned the minister of justice for the release of Skill. Any further action of the church in connection with the sale of obscene literature has been left in the hands of Rev. Dr. Chown, who until the end of the year will act as secretary of the moral reform, prohibition and temperance movement.

The report of the committee on temperance, prohibition and moral reform made the following reference to penology:

"The progress made during the quadrennium in developing opinion favorable to better methods of treatment for the criminal with the object of his reclamation, we feel as a barrier against the application of the principles of Christianity to the penal system. The true principles of penology in a Christian nation, while adequately protecting society from the criminal, should be not vindictive, but reformatory in their purpose. In fulfillment of this ideal we note:

1. The Canadian Juvenile Delinquents' Act passed by the Dominion parliament in 1908 has been brought into force in the provinces of Ontario, Manitoba, Nova Scotia and Quebec.

2. The operation of the suspended sentence continues to have very beneficial effects, by treating with leniency offenders who by imprisonment might have been degraded to the status of permanent criminals.

3. The Minister of Justice sees his way clear to grant the use of the indeterminate sentence and parole system in connection with all municipal offences.

4. Improved detention methods are being adopted in Ontario and Alberta. Reformatory farms are being provided, on which the most advanced systems of parole will be employed. It is hoped to the great improvement of character and tone of thought of those necessarily under detention.

5. The case of the inebriate by government, with the use of the most modern and scientific methods, having in view the reclamation and cure of the drunkard, though steadily advocated, is a greatly needed reform and is to be kept for sale in any province of Canada, under a prohibitory law.

(b) To make adultery and lewd cohabitation offences under the Criminal Code.

## ARRESTED FOR MURDER IN SHERIFF'S OFFICE

Wisconsin Italian is Gathered in for Portland for Killing of Girl

Portland, Ore., Aug. 31.—Alejo Carloni, an Italian aged 24, wanted in Wisconsin in connection with the murder of Angela Freidlandia, his sweetheart, who was killed at Cumberland July 4th, is in the county jail here awaiting the arrival of authorities to return him to Wisconsin.

Carloni was arrested by Sheriff Stevens in the sheriff's office, where Carloni had come to complain over the theft of some small articles.

As the suave fellow informed the sheriff of his losses, Stevens closely scrutinized the features of the stranger. Suddenly he recollected having a circular with a small photograph that bore a likeness to the man.

Purposely drawing out the conversation, Stevens secured the circular, compared the features and then arrested the fellow. Carloni soon admitted his identity and is alleged to have made damaging admissions.

The girl to whom Carloni was engaged was murdered on the day the couple had intended to be married. Their courtship had begun to wane, so Carloni said, because she had met another man whom she loved more than him. Carloni attempted a reconciliation but was unsuccessful.

Soon afterwards the woman was found dead in her room with her throat slashed and Carloni had disappeared. He told the sheriff he went to Alaska. Recently he returned and stayed in Seattle and Spokane, later coming to Portland, Sheriff Johnson, of Barron county, Wis., is en route to return Carloni to Wisconsin.

NEW C. N. R. CONCERN.

OTTAWA, Aug. 31.—The Canadianian Power & Paper Company, with a capital of ten million dollars, and headquarters in Toronto, has been incorporated to carry on in all the branches the business of manufacturers and dealers in pulp and paper. It is apparently a Mackenzie & Mann concern, as the incorporation is in the names of Messrs. F. H. Phippen, K.C., Gerard Rupe, G. E. McDonnell, R. H. Temple and A. J. Reid, of the legal staff of the Canadian Northern.

GIBSON TAILORED WAISTS of White Irish linen, buttoned to the side, with knife pleating frills. Campbell's value.....\$3.25

## LEPROSY BACILLUS HAS BEEN LOCALIZED

Great Achievement Recorded at Leprosy Colony After Long Experiment

Washington, D. C., Aug. 31.—Leprosy, the unconquered scourge of the age, is making what is believed to be its last stand against science. From Molokai, the coral island prison for the plague-stricken in the Hawaiian group, a few words have been flashed half way around the world to Washington telling of an achievement accounted second only to the discovery of the lepra bacillus by Hansen in 1872.

Three surgeons of the United States public health and marine service after months of unremitting toil have grown lepra bacilli in pure culture outside the human body and in tiny thin glass tubes. In the laboratory loathsome germs are now growing in their third generation. Four times the scientists have taken the infection from the body of a leper and artificially propagated the bacillus on beef broth, eggs or amoeba of the intestine of a guinea pig. The work of Dr. Moses T. Clegg, who declared less than a year ago at Manila, that he had found that the bacillus could be cultivated outside the human body, is verified and extended. Clegg has been rushed from the Manila scientific station to Molokai to assist in the experiments.

Dr. Donald H. Currie, director of the station, Dr. Walter R. Erikerhoff and Dr. T. Holtman are the men who have grown the cultures. After four months' careful work, in which they had labored to grow the lepra bacillus in the amoeba of pond water, guinea pig intestines and other low forms of animal life, they were about to give up defeated.

Some of the tubes containing specimens were about to be destroyed, when one of the men determined to make a last inspection of the cultures, in a forlorn hope. To his astonishment he found the germs living. The discovery spurred the investigators to new efforts and back over the blazed trail they had covered so often they worked again. Clegg had found that by feeding the bacillus of cholera to the amoeba the lepra bacillus did better. That was supplemented by gelatin, beef extract and eggs, and within three weeks the searchers were rewarded again with the living germ. Currie obtained a pure culture, which means he has eliminated the amoeba and the cholera bacillus and now has the lepra bacillus propagating itself.

## MILLINERY REMAINS LARGE

Chicago, Aug. 31.—There is no relief in sight for women who have accepted the dictates of fashion and struggled under the unwieldiness of hats of the size of an umbrella. That is the edict of the national association of retail milliners, which is holding its annual convention here.

Big hats are to be bigger and small hats smaller than ever before. There are to be no medium sized hats. The desire for extreme extends even to the coloring, according to Mme. Macrie, president of the association. The more brilliant the coloring the more nearly to the ideal effect will the new hat conform.

New shades will include magnolia, a shade of orange, daisy, a coral red, poppy, a dead rose, heron, a light mahogany and a cajeou, a raisin color.

Wheat Hearts is meat for a man of maturity, a dainty dish for a delicate child.

## Still Too Many Palms and Ferns

We have got rid of quantities, but we want more room yet.

THE SALE WILL CONTINUE UNTIL **WEDNESDAY, September 7th**

Every Customer Has Been Well Satisfied. Quantities of Fine House Plants still to sell from 15¢ to \$1.00 each.

**FLEWIN'S GREENHOUSES**

RUPERT STREET

## ACQUISITIONS FOR DOMINION ARCHIVES

Valuable Historical Papers and Prints Secured by Dr. Doughty in England

Ottawa, Aug. 31.—Dr. Doughty, Dominion archivist, has returned from a visit paid to England in the interests of the work of the archives and has brought back with him an exceedingly interesting collection of historical papers and prints. Dr. Doughty spent a month in England, during which time he was busy making arrangements for the transfer here of certain old papers relating to Canadian history and collecting prints.

Altogether about 100 prints have been added to Canada's collection as a result of the visit. They include a very good series of early governors of Canada, military scenes and some early impressions of the Rockies. These have been placed downstairs, many of the prints which formerly occupied space there having been moved up a few floors. The papers include a number relating to Lord Durham's mission to Canada and were presented to the archives by the Durham family. Others will arrive later. They include a diary in Lord Durham's own handwriting and another in that of his secretary. A handsome print of Lady Durham is included in the list of engravings received.

The University of Cairo, the most celebrated institution of learning in the Mohammedan world, will celebrate its one thousandth anniversary this year.

## New Move

## CONFERENCE IS BROUGHT TO CLOSE

METHODISTS ADJOURN AFTER LONG SESSION

Stirring Scene at Metropolitan Church Last Evening—Concluding Business

With prayer led by Rev. Dr. Carman, the venerable head of the church, the General Conference of the Methodist church of Canada, which has been in session at the Metropolitan church for the last two weeks, concluded its labors and adjourned shortly after 11 o'clock last night.

At the time of adjournment there were not more than fifty delegates in the auditorium, and the galleries were entirely deserted by visitors, who had well filled them at the opening of the concluding session. All through the evening one by one and two by two they went the rounds shaking hands with their friends and acquaintances, and then leaving the conference church for the night boat which will convey them on the first part of their journey to their various and scattered homes.

It will be another four years before such a gathering will come together again, and before that time changes in the personnel of its members.

"Now, brethren," said Dr. Carman in his concluding remarks before closing the meeting with prayer and the singing of a hymn, "we have met together for the last two weeks in this church by the marvelous mercy of God, in the good fellowship of work and labor in his vineyard, and have done our best in the fear and love of God. The time has now come when we adjourn."

Among the concluding features of the work of the General Conference were a report of the temperance, prohibition and moral reform committee and a message of loyalty, which is to be sent to King George V. The message assures his Majesty of the loyal devotion to his person and throne of the million and a quarter Methodists in the Dominion and the earnest and prayerful desire of the conference that he will do all in his power towards building up a righteous and God-fearing nation in the northern half of this continent as an integral part of a great and united British Empire.

Racetrack gambling, a problem which is described as having become more acute through growing wealth and luxury and the outflowing of the business of bookmaking in New York and other states of the adjoining republic, has been strongly condemned. Attention is drawn to the Miller bill and it is greatly regretted that owing to the opposition of the minority of justice the bill failed to secure a majority in the House, and as a result a compromise bill was accepted. This bill it is stated while reducing and restricting the evils of the racetrack in various ways fails to adopt the principle of outlawing racetrack gambling as a business. The moral reform department of the church has been instructed to maintain the agitation and insist that professional gambling on racetracks be prohibited by act of parliament at the earliest possible date.

Dealing with the white slave traffic, its abominations and menace are described as awakening the conscience of Christian states to the enormity of the crime. It is pointed out that the equally infamous and abominable method employed in its behalf have been brought into the white light of exposure. Against this traffic the conference urges the most solemn warnings, the circulation of literature which exposes its methods, and the vigorous enforcement of law against offenders. In this connection the utter inefficiency of the penalties provided are quoted and a considerable increase in these is demanded—it is pointed out that the maximum penalty should be not less than ten years with hard labor. The conference expresses its grave disapproval of the practice that is obtaining in several places in the west

## "Safe" Prescriptions

We place every possible safeguard around the compounding, and only employ expert prescriptionists.

Prices are never higher, usually lower here than elsewhere. This is evidenced by the fact that we are filling a large number of prescriptions daily.

## The Famous V. I. Cigar

Excellence of Quality Better Than The Best

of employing Indians for purposes of education in connection with agricultural and other shows, as productive of unsettling and demoralizing effects upon them, and urges that the department of Indian affairs should be asked to interfere and employ such counsel and other methods that may be deemed needful to repress the practice.

Among other recommendations of the temperance committee adopted unanimously by the conference is a protest against the permission of the sale of liquors in officers' and sergeants' messes in property under the control of the militia department of Canada.

Owing to the explanation made by Chancellor Burwash no action has been taken in the case of Skill and King, the Toronto firm of publishers sentenced for selling obscene literature. Dr. Burwash stated that he had information that King alone was implicated in the crime and that Skill, the senior partner, knew nothing whatever of it. On the strength of his knowledge Dr. Burwash stated that he had petitioned the minister of justice for the release of Skill. Any further action of the church in connection with the sale of obscene literature has been left in the hands of Rev. Dr. Chown, who until the end of the year will act as secretary of the moral reform, prohibition and temperance movement.

The report of the committee on temperance, prohibition and moral reform made the following reference to penology:

The progress made during the quadrennium in developing opinion favorable to better methods of treatment for the criminal with the object of his reclamation we hail as a harbinger of true application of the principles of Christianity to the lauded classes. "The true principles of penology in a Christian nation, while adequately protecting society from the criminal, should be not vindictive but reformatory in their purpose—in fulfillment of this ideal we note:

1. The Canadian Juvenile Delinquents' Act passed by the Dominion parliament in 1908 has been brought into force in the provinces of Ontario, Manitoba, Nova Scotia and Quebec.

2. The operation of the suspended sentence continues to have very beneficial effects, by treating with leniency offenders who by improvement might have been degraded to the status of permanent criminals.

3. The Minister of Justice sees his way clear to grant the use of the intermediate sentence and parole system in connection with all municipal offences.

4. Improved detention methods are being adopted in Ontario and Alberta. Reformatory farms are being provided on which the most advanced systems of parole will be employed. It is hoped to the greatly improved character and tone of thought of those necessarily under detention.

5. The case of the inmate by government with the use of the most modern and scientific methods, having in view the reclamation and cure of the drunkard, though steadily advocated, is a greatly needed reform yet to be realized.

6. The committee recommends that the general conference urge the Dominion government to introduce such legislation as may be necessary:

(a) To prevent the transportation of intoxicating liquors to be kept for sale in any province of Canada, under a prohibitory law.

(b) To make adultery and lewd cohabitation offences under the Criminal Code.

## ARRESTED FOR MURDER IN SHERIFF'S OFFICE

Wisconsin Italian is Gathered in in Portland for Killing of Girl

Portland, Ore., Aug. 31.—Alec Carloni, an Italian aged 24, wanted in Wisconsin in connection with the murder of Angela Piccolini, his sweetheart, who was killed at Cumberland July 4th, is in the county jail here awaiting the arrival of authorities to return him to Wisconsin.

Carloni was arrested by Sheriff Stevens in the sheriff's office, where Carloni had come to complain over the theft of some small articles.

As the suave fellow informed the sheriff of his losses, Stevens closely scrutinized the features of the stranger. Suddenly he recollected having a circular with a small photograph that bore a likeness to the man.

Purposely drawing out the conversation, Stevens secured the circular, compared the features and then arrested the fellow. Carloni soon admitted his identity and is alleged to have made damaging admissions.

The girl to whom Carloni was engaged was murdered on the day the couple had intended to be married. Their courtship had begun to wane, so Carloni said, because she had met another man whom she loved more than him. Carloni attempted a reconciliation but was unsuccessful.

Soon afterwards the woman was found dead in her room with her throat slashed and Carloni had disappeared. He told the sheriff he went to Alaska. Recently he returned and stayed in Seattle and Spokane, later coming to Portland. Sheriff Johnson, of Barron county, Wis., is en route to return Carloni to Wisconsin.

## NEW C. N. R. CONCERN.

Ottawa, Aug. 31.—The Canadian Paper & Pulp Company, with a capital of ten million dollars, and headquarters in Toronto, has been incorporated to carry on in all the branches the business of manufacturers and dealers in pulp and paper. It is apparently a Mackenzie & Mann concern, as the incorporation is in the names of Messrs. F. H. Phippen, K.C., Gerard Burt, G. E. McDonnell, R. H. Temple and A. J. Reid, of the legal staff of the Canadian Northern.

## Marvellous Array of Waists

Dainty and fresh looking is the woman who has a sufficient number of Shirt Waists. We have searched far and wide for the very prettiest styles and, as usual, have succeeded in getting together the very latest and daintiest designs in plain and tailored effects.

GIBSON TAILORED WAIST OF FANCY WHITE VESTING, box pleats down front, detachable collar and link cuffs. Campbell's value \$1.50  
WHITE TAILORED WAISTS of fancy striped vesting, tucked. Scalloped front and yoke back, link cuffs. Campbell's value \$2.25  
LADIES' TAILORED WAISTS of fancy striped vesting, very latest style, buttoned to the side effect, finished with 3 large buttons. Campbell's value \$2.50  
TAILORED WAISTS OF WHITE REPP, scalloped front, with large buttons, embroidered pique collars and link cuffs. Campbell's value \$2.75  
IRISH LINEN TAILORED WAISTS, front made with cluster pin tucking, detachable collar, with stiff cuffs for links. Campbell's value \$2.75  
GIBSON TAILORED WAISTS of White Irish linen, buttoned to the side, with knife pleating frills. Campbell's value \$3.25

## LEPROSY BACILLUS HAS BEEN LOCALIZED

Great Achievement Recorded at Leprosy Colony After Long Experiment

Washington, D. C., Aug. 31.—Leprosy, the unconquered scourge of the age, is making what is believed to be its last stand against science. From Molokai, the coral island prison for the plague-stricken in the Hawaiian group, a few words have been flashed half way around the world to Washington telling of an achievement accounted second only to the discovery of the lepra bacillus by Hansen in 1873.

Three surgeons of the United States public health and marine service after months of unremitting toil have grown lepra bacilli in pure culture outside the human body and in tiny thin glass tubes. In the laboratory loathsome germs are now growing in their third generation. Four times the scientists have taken the infection from the body of a leper and artificially propagated the bacillus on beef broth, eggs or amoeba of the intestines of a guinea pig. The work of Dr. Moses T. Clegg, who declared less than a year ago at Manila that he had found that the bacillus could be cultivated outside the human body, is verified and extended. Clegg has been rushed from the Manila scientific station to Molokai to assist in the experiments.

Dr. Donald H. Currie, director of the station; Dr. Walter R. Brinkerhoff and Dr. T. Hoffman are the men who have grown the cultures. After four months' careful work, in which they had labored to grow the lepra bacillus in the amoeba of pond water, guinea pig intestines and other low forms of animal life, they were about to give up defeated.

Some of the tubes containing specimens were about to be destroyed, when one of the men determined to make a last desperate attempt to make a fortune. He took the tubes to his apartment and found the germs living. The discovery spurred the investigators to new efforts and back over the blazed trail they had covered so often they worked again. Clegg had found that by feeding the bacillus of cholera to the amoeba the lepra bacillus did better. That was supplemented by gelatin, beef extract and eggs, and within three weeks the searchers were rewarded again with the living germ. Currie obtained a pure culture, which means he has eliminated the amoeba and the cholera bacillus and now has the lepra bacillus propagating itself.

## MILLINERY REMAINS LARGE.

Chicago, Aug. 31.—There is no relief in sight for women who have struggled under the weight of fashion and struggled under the unwieldiness of hats of the size of an umbrella. That is the edict of the national association of retail milliners, which is holding its annual convention here.

Big hats are to be bigger and small hats smaller than ever before. There are to be no medium sized hats. The desire for extreme extends even to the coloring, according to Mrs. Marie, president of the association. The more brilliant the coloring the more nearly to the ideal effect will the new hat conform.

New shades will include magnolia, a shade of orange, daisy, a coral red, poppy, a dead rose, heron, a light mahogany and a cayou, a raisin color.

Wheat Hearts is meat for a man of maturity, a dainty dish for a delicate child.

## Still Too Many Palms and Ferns

We have got rid of quantities, but we want more room yet. THE SALE WILL CONTINUE UNTIL WEDNESDAY, September 7th. Every Customer Has Been Well Satisfied. Quantities of Fine House Plants still to sell from 15c to \$1.00 each.

**FLEWIN'S GREENHOUSES**

## ACQUISITIONS FOR DOMINION ARCHIVES

Valuable Historical Papers and Prints Secured by Dr. Doughty in England

Ottawa, Aug. 31.—Dr. Doughty, Dominion archivist, has returned from a visit paid to England in the interests of the work of the archives and has brought back with him an exceedingly interesting collection of historical papers and prints. Dr. Doughty spent a month in England, during which time he was busy making arrangements for the transfer here of certain old papers relating to Canadian history and collecting prints.

Altogether about 100 prints have been added to Canada's collection as a result of the visit. They include a very good series of early governors of Canada, military scenes and some early impressions of the Rockies. These have been placed downstairs, many of the prints which formerly occupied space there having been moved up a few floors.

The papers include a number relating to Lord Durham's mission to Canada and were presented to the archives by the Durham family. Others will arrive later. They include a diary in Lord Durham's own handwriting and another in that of his secretary. A handsome print of Lady Durham is included in the list of engravings received.

The University of Cairo, the most celebrated institution of learning in the Mohammedan world, will celebrate its one thousandth anniversary this year.

## New Move

We are now moving to our new location on Fisguard street, between Blanchard and Quadra, where we have more commodious quarters to handle our rapidly increasing business, embracing Plumbing, Heating, Roofing and Siche Gas Lighting and Cooking Installation.

Our Phone is 226.

For prompt work, careful work and moderate prices, call us up.

### CHURCH UNION.

Now that the Methodist General Conference has completed its labors, with results which will doubtless have a far-reaching effect in Canada, it may be opportune to point out that this is not the only portion of the Empire in which an important question of denominational union is being seriously considered. Three of the most powerful churches of the new South African federation are considering a similar proposition. But in their case the Methodists stand aloof. The Presbyterians, the Baptists and the Congregationalists are drawing together, with every prospect of an organic union being speedily consummated. In this country it is the Baptists and the Anglicans who, while they have given some consideration to the question, have reached the conclusion that the fields are not yet ripe for a union of evangelical forces. Yet the case is not hopeless. Few of us who have spent a couple of score of years in the world but can remember the time when the Presbyterians and the Methodists were as wide apart in sympathy, in polity and in methods as the Church of England and the "dissenters" are to-day. But the forces of prejudice are breaking down; the advantages of union and co-operation are being recognized; opportunities for work are broadening; the great fields of the west are ripe for the harvest, and the demand for laborers exceeds the supply. The time has come for concentration of forces in order to produce the best economic results. Several years must pass before the union resolutions passed by the Methodist General Conference can be put into practical effect; and by that time some of the other denominations may be knocking at the door for admission. This is a day of organization. The churches cannot afford to ignore the signs and movements of the times. The Methodists are to be congratulated upon the broad and tolerant spirit with which they approached the vital question of Church Union.

### LOYALTY AND DISUNION.

Bourassa, whom the Conservatives were denouncing a few months ago as a traitor to the British Empire, is now hailed as the hope of their party in the province of Quebec. He is eulogized as the personification of patriotism, simply because in the course of his late tour of the province he has joined with Mr. Monk in a denunciation of the naval policy of the Laurier government, which he described as destined to involve Canada in the "maelstrom" of European militarism. Bourassa, the

unspeakable, has been taken to the bosom of the party as the very incarnation of patriotism. And in the meantime Mr. Monk, Mr. Bourassa's convert and ally, writes a signed letter to a Quebec newspaper describing "Sir Wilfrid Laurier, whom Mr. Barnard and Mr. Cowan have accused of lack of loyalty to the Empire, as 'a stupid and servile loyalist' who has destroyed the birthright of the people by the creation of the Canadian navy. Yet this tattered remnant of a party, whose members in the various provinces of the Dominion are pulling different ways and preaching antagonistic doctrines, rages and fumes in the knowledge that it is making no progress towards gaining the confidence of the people. It realizes that Laurier 'holds the country in the hollow of his hand,' and that while he lives the floor of hope is closed against it. Under the circumstances it is not surprising that the tour of the Prime Minister throughout the west, where he has been received with a greater enthusiasm than was ever exhibited towards a public man, past or present, has aroused a very bitter feeling in all Conservative circles in the east, and that the action of Premier McBride in according Sir Wilfrid a cordial welcome in the name of all the people of this province is resented none the less deeply although it has been permitted to pass for the most part silently. If the government of the country were not in such capable hands, it would be almost pitiful to think that the Conservative party has learned so little from the teachings of experience. It does not yet realize the necessity of unity, nor does it understand that a party without aim or policy save the possession of power can never successfully appeal to the people against a government with a strong policy, an able leader and a record of unexampled achievements.

### REJOICING IN GROWTH.

If there be any satisfaction in the realization of rapid growth of population, the principal cities of the United States are adding to the numbers of their people fast enough. They are all growing at a rapid rate, but we do not know that such a tendency is likely to add materially to the comforts of the average human unit in the population. The larger the population the keener the competition for such opportunities as are offered to those who must in the very nature of things fulfil the condition of earning their bread by the sweat of their brow. Still the people of all cities, whatever their circumstances, rejoice in the knowledge that they are growing. That is one of the ineradicable traits of human nature. Philosophers tell us it is an illogical trait, an inevitable sign of fallacious reasoning. But in the great ruck of humanity philosophers are scarce and the warnings of the few sages are held in derision. The people of New York are proud of their city, because it holds the position of pre-eminence in point of population and commerce in the republic, and can never be overtaken by Chicago or Philadelphia. The population of Buffalo laments the fact that Detroit has overtaken and passed it in the census enumeration tables. In Canada we are not absolutely free from the weaknesses our neighbors are displaying at the present time. Montreal and Toronto, Winnipeg and Calgary, and we doubt not some of the cities of British Columbia, can prove by comparative statements that they are growing at quite as satisfactory a ratio as the leading cities of the United States. We are all proud of the remarkable growth Canada in general has shown in recent years. Industrially and commercially we have made strides out of proportion to the increase of our population. We are heaping up wealth also in a greater ratio per head of the population than is the case in any other country on the face of the globe. It may be illogical and a sign of faulty mental poise to felicitate ourselves upon these things, but it is, as we have said, a human tendency, and cannot be resisted.

### POLITICAL CHAOS IN THE STATES

The Republican "regulars" of the state of New York evolved a deep scheme to shelve Theodore Roosevelt and remove a possible stumbling block to success at the pending Congressional elections. The idea was to have the Colonel nominated for the governorship of the state of New York. A nomination, if accepted, would have been equivalent to an election, and the coast would have been clear for the designs of the "regulars." But in vain is the net set in sight of the bird—and the Colonel is an old and wary fowl. He would have sidestepped had the plan reached maturity. He is on the war-path. His Big Stick is raising sundry bumps, wherever a head shows above the crowds. He has issued a warning to the corporations and admonished the mobs that something may drop upon their upper storeys if they don't watch out. While it does appear to us that the Colonel's wrath is for the most part expressed in vigorous words and has not been productive of any very tangible results, there is no question that the despoilers of the common people fear him and would prefer to have him relegated to the background of the political landscape. He has thus far not

taken any practical steps to curb the power of the trusts. He believes in official regulation, whereas the fact is well known, and has been demonstrated by experience, that combinations laugh at government regulation. There is only one way to deal with them. That is to bring the necessities of life whose prices they control through the operations of the tariff into competition with the products of the world at large. If the Colonel thinks he can do justice to the people in any other way, he is simply beating the air, not the corporations, with his Big Stick. The trusts and the combines and the vested interests made a tool of Taft, who is the nominee of the Colonel. That accounts for the genesis of the "insurgents." Now the president apologizes and says that while he believes the Aldrich tariff to be the best ever laid before the people, he is willing to admit that it may be weak in some respects and will consent to its further revision downward if investigation proves that it can be improved upon. If Roosevelt has nothing better to offer than that, even though presented in a great cloud of big words, vigorously expressed, the people may conclude that the time has come to give the Democrats a chance.

Reitmann, the professional Anarchist, says a New York paper, is another public performer of American renown who finds British audiences unresponsive and unappreciative. It is strange, this persistent British contempt for genius cherished in America. Reitmann told the London correspondent of the Times that his incendiary utterances in Hyde Park fell on dull ears and unwilling hearts, while in New York he always feels able "to work up a mob to do something." The difference, he naturally attributes to the inferior quality of the London audience. Let him take heart. Hackett, the great American actor of our grandfathers' days, found English audiences cold and unsympathetic at first, but in time his vogue became as great in London as in his own country. It will be a glorious thing for Reitmann to make the east side New York brand of Anarchy pay in London. Let him keep on trying. We'll manage to struggle along here without his eloquence. The London police provide a fine stimulus for anarchistic oratory.

An enthusiastic admirer of Dickens suggests that in honor of the centenary of the great novelist every boy born into the world on February 7, 1912, be named "Charles D." etc. Even if the suggestion were limited to the English-speaking portions of the earth, a living monument of considerable proportions would thus be raised to the memory of one of England's immortals.

They are holding "regattas" in the air now in some parts of the world. The mortuary returns thus far have been the most noteworthy features of these carnivals.

### LAMENT OF THE GRAHAM ISLANDER

What is our Island coming to, we ask the passer-by. Since coal and timber cruisers got their fingers in the pie? You find their stakes from shore to shore, no matter where you go. And when the farmer comes along he finds his cake all dough. When you write down to Victoria about this Island shore They send you books and papers and pamphlets by the ton. They tell you farming land is good, but they forget to say That as far as getting it's concerned, you'd better stay away. These books tell all about the vast amount of farming land. And paint a glowing picture of a future great at hand. When steamboats come and railroads run, of canneries galore. Where you can sell your produce, all you raise, and then some more. But when the people get here and start to look it over They find that timber limits run a mile back from every shore. They find the whole blam'd country stak'd for coal and oil and trees, And if they want to get a farm, they'll have to stake the sea. And the sea, as far as that's concerned, is stak'd for fish and clam. And submarine, and Lord knows what—it's just as bad as land. Oh, take a tip, you landseckers, and do not wend your way To Graham Isle to pre-empt; you'll find it does not pay.

The thing that bothers us the most, what we can't understand, Is why the Government advertises to settle up the land? It's like the treacherous lion who'd lure the deer into his lair. Are they in league with steamboat lines for a rake-off on the fare?

I could name men here among us, who have travel'd many a mile On the strength of pamphlets they've got regarding Graham Isle. And if you don't believe me, come and see, you'll find it so. For they're still awaiting records, on land stak'd a year ago.

Now it may be just and legal to play this little game, But to those who come and those right here, it's a downright dirty shame. To encourage people to a land, as I've already said, With trees stak'd o'er and coal below, they'd better far be dead.

All east of Masset Inlet was reserv'd five years ago From purchase, lease and timber, then we thought we'd a show. But now it's covered up with coal and oil and lease as well. And a pre-emptor couldn't get a spadeful if he were to go to h—!

Oh, see! the prospects here, my lads, for farmers are a fake, You may as well stay where you are and dream about our stakes. We who are here will linger on and try to live in peace. Until some cruiser comes along and stak's the ducks and geese!

COLLECTS TILICUM.

## BALLINGER MAY BE FORCED FROM CABINET

### Seattle Colleague of Taft, it is Reported, Will Be Censured in Land Case

Beverly, Mass., Aug. 31.—That Secretary Ballinger is to be forced out of the cabinet by a bold political stroke is the report current here to-day. Ballinger, instead of being white-washed by the congressional investigating committee, will be censured, it is declared, thus forcing President Taft to ask for his resignation. The success of this plan depends, it is alleged, on the defection of Congressman Samuel W. McCall, of Massachusetts, from the majority favoring exoneration and the non-participation of Senator Elihu Root of New York in the verdict. If the plan works the committee will stand six to five against Ballinger. Senator Root was absent from the hearings during the closing days of the investigation. It is planned to disqualify him from voting because he did not hear the important testimony that was presented just before the committee adjourned.

## LABELLED DIVINE SARAH

### Author of Alleged Sketches of Tour Is Dead

Paris, Aug. 31.—The death here of Marie Colombier has revived gossip of the enmity that long existed between the woman and Sarah Bernhardt. Madame Colombier accompanied Mme. Bernhardt on the first American tour. After her return to Paris she wrote a book entitled "Sarah Barnum," which, under a thin disguise, dragged the name of Sarah Bernhardt through a number of scandals. The book ran through 91 editions. Madame Colombier was fined 1,000 francs and spent two weeks in prison as a result of conviction on the charge of "outraging public morals" by publishing the book.

## MARU'S MOVEMENTS.

### Kamakura Due Here To-morrow Just Before Noon With Passengers and Freight.

Steamer Inaba Maru passed out bound for Yokohama yesterday evening with 22 steerage passengers from this port. In the saloon was C. P. Allan, Mrs. McKay and two children, and A. J. Agassiz. The vessel had a large cargo of general merchandise taken at Puga Sound ports. Steamer Kamakura Maru is reported, and is expected to arrive here to-morrow morning at 11. She has about 300 tons of freight and a number of passengers for this port.

## ASKS HEAVY DAMAGES.

Seattle, Wash., Aug. 31.—Mrs. Ross Berry, widow of Charles Berry, a longshoreman who was fatally injured during the big strike of 1908, has filed a suit for \$25,264 damages against the Puget Sound Shipping Association, on behalf of herself and minor daughters. The widow declares that her husband was killed through negligence of the defendants in bringing about the strike situation.

## CALLS ROOSEVELT MEDDLER.

Copenhagen, Aug. 31.—In the international Socialist congress to-day, Deleade Ledbar, a member of the German Reichstag, attacked Col. Roosevelt's tendencies to militarism, as he termed them. He also accused the former president of having "meddled with the Egyptian question," declaring the action incompatible with the spirit of Americanism.

## NOVELTY WON FUTURITY.

Saratoga, N. Y., Aug. 31.—Novelty, the Hildreth entry, won the Futurity stakes this afternoon. Bashki was second and Lovenothe third. Time, 1:12 1-5. Novelty and Bashki were coupled as favorites.

## PERSONAL.

John Dorsey, of Aldermere, B. C., is in the city. He reports much activity in the northern districts. The season has been a favorable one for small fruits. Strawberries were being shipped from Kitsekum valley at the time he left.

Major E. C. Tooley, who has been directing paymaster here for the past three years, has left for Ottawa, accompanied by his family, his very efficient services being desired at headquarters by the militia council.

The engagement is announced of Beatrice, youngest daughter of Captain and Mrs. Gaudin, Craigflower road, to Mr. Raymond Bond, of Seattle, and late of Birmingham, England.

Mrs. John Cochrane, Linden avenue, will not receive on the first Thursday of September, but on the last Thursday of this and the following months.

Mr. and Mrs. G. Wilkes, with their daughter, Miss M. Wilkes, Ganges, are spending a few days in this city visiting friends.

The Misses McCullough, Linden avenue, returned on Saturday from a delightful fortnight's stay at Banff.

Dr. and Mrs. Davie are to-day moving into their pretty little new bungalow on Monterey avenue, Oak Bay.

C. D. Hamilton and R. A. Hamilton, Pincher Creek, are guests at the King Edward hotel.

H. W. Leslie-Melville, Duncan, is in the city, registered at the King Edward hotel.

Roy Brown, news editor of the Vancouver Province, is in the city on a brief visit.

Fred Richardson, of Vancouver, is visiting his mother, 802 Blanchard St.

E. Singleton-Wise, Mayne Island, arrived in town yesterday on a brief visit.

H. A. Bayfield, Vancouver, is spending a few days in this city on business.

Miss Ashton is among the visitors in town from Salt Spring Island.

A new vocal teacher, successor to Mr. Chas. Bethune, has arrived in Victoria in the person of Mr. Paul Edwards, a well known vocalist and professor of singing from London, England, who was principal baritone with Madame Tetrazzini on her last British tour. He has opened a studio at Messrs. Wail's piano stores, Government street.

The Rule—To make the best Pancakes you ever ate, mix sweet milk and water with Olympic Pan-Cake Flour. Cook on a hot griddle. Some cooks use an egg. Use no salt, yeast, soda or baking powder.

Wm. W. Northcott, purchasing agent for the corporation, is cutting for tenders, which will be received up to 4 p. m. on Friday, September 2, for the paving of the following streets, viz., Rockland avenue from Vancouver to Moss street; Richardson street from Moss street to Cook street; Fernwood road from Fort street to Gladstone avenue; Fort street between Yates street and St. Charles street. Plans, profiles and specifications can be seen at the purchasing agent's office.

General satisfaction is expressed by business men in the city at the continued fast mail service between Great Britain and Victoria which the Dominion government's arrangements some months ago made possible. The slowest mail seldom takes longer than twelve days, and about once a week letters are received from London in the remarkably quick time of ten days. Yesterday a letter was delivered to a local firm, stamped "London, E. C. 12, 30 p. m., August 20th." It was received, and an answer posted shortly after 4 p. m. on August 30th.

The rowing season of the J. B. A. A. will be wound up on Saturday when the club's annual regatta will be held in the afternoon at the Gorge, and in the evening a flannel dance will be held in the club gymnasium. Already an energetic committee have commenced to decorate the interior of the club premises with flags and club colors. The event will be limited to seventy-five couples and no gains will be spared to make the event as enjoyable as those held by the club on previous occasions. Admission will be by tickets, which can be procured only from the following committee: Leigh S. Shanks, R. Hiscok, Leo Sweeney, J. P. Sweeney, V. K. Gray and W. N. Kennedy.

Teams representing the United Commercial Travellers of Victoria and the Commercial Travellers of Vancouver are to indulge in a baseball match at the Royal park on Saturday afternoon next for the watermelon championship of the province. The match will be called on the conclusion of the game between Victoria and Chemainus.

Labor Day will be celebrated by the members of the Victoria Farmers' Institute with a basket picnic at Cordova Bay. Prizes will be given for the following competitions: 1, 100 yard race; 2, 50 yard race, boys under 12; 3, 100 yard race, boys under 16; 4, 440 yard race; 5, 50 yard race, girls under 12; 6, needle and thread race, ladies; 7, sack race, boys under 16; 8, 1 mile relay race, Royal Oak vs. Cedar Hill, sets of three; 9, egg and spoon race, ladies; 10, sack race, boys under 12; 11, 50 yard race, girls under 16; 12, running high jump; 13, running long jump. Tug of war between Royal Oak and Cedar Hill, six to a side. Special prize for person obtaining most points.

In Chambers yesterday R. S. Lowe was granted an order for a writ of attachment on behalf of Kwong, Sing Wing & Co., against the absconding debtors act, against Dai Jong Gong, a merchant formerly of Cormorant street. Affidavits put in by the applicant showed that Gong had borrowed \$200 and received goods valued at \$11.30 from them. It was alleged that he had now left the country for China in an effort to evade payment, not only of these debts but of obligations to the firm of Yot Wah Lung. The applicants may attach such property as Gong left behind but must put up a bail equal to the value of the goods attached.

## SPLENDID COUNTRY NORTH END OF ISLAND

F. M. Kelly Returns From Exploring From Hardy Bay to Cape Scott

"The country at the north end of Vancouver Island is a fine one, and Victorians will realize after awhile that they have neglected many opportunities in that direction," said F. M. Kelly, who returned from Quintana a day or two ago on the steamer Teas. Mr. Kelly has been exploring all the country in the neighborhood of Shushartie. He describes it as an open country and one well suited to agriculture. There is plenty of grass and some swamp but much of the land is fine.

Mr. Kelly went to Hardy Bay and from there he traversed the country tracing the Tequitque river to Kains lake, a connection which is not shown on the government maps. He also went up the river from the coast to Geogifia lake. The latter he describes as a fine sheet of water three and a half miles long. The fishing there is excellent and he thinks will be an attractive resort later on.

While in the country Mr. Kelly visited all the settlers. They are at present constructing a road from Shushartie to Cache creek, but this is to be extended both ways to run from Hardy Bay to Cape Scott. The cattle, which were taken in look very well, although he heard that a few were lost during the winter.

As there is little timber in the country Mr. Kelly is of opinion that this will soon become an important farming centre. People are already fast going into the San Josef valley, and as soon as it is discovered what a fine country there is, hundreds will take up the lands in the rest of the country. A large part of it is reserved for pre-emption, but some tracts were located for purchase.

### OBITUARY RECORD

This afternoon the funeral of the late Margaret, the six-year-old daughter of Mr. and Mrs. Archibald Clyde, took place from the family residence, 544 Belton avenue, at 2:30 o'clock. The remains were laid to rest in Ross Bay cemetery.

Arrangements have been made for the funeral of the late Edward Anderson to-morrow afternoon at 2:30 o'clock from the parlors of the B. C. Funeral Company, under the auspices of the Fraternal Order of Eagles, of which order deceased was a member.

The remains of the late Victoria Price, the daughter of Mr. and Mrs. W. H. Price, will be interred to-morrow afternoon in Ross Bay cemetery. The funeral takes place at 2 o'clock from the family residence, 2631 Pleasant street, from where the cortege will proceed to St. John's church. Interment will be made in Ross Bay cemetery.

Many sympathizing friends attended the funeral of the late Mrs. Sophia Dobinson, one of the pioneers of this city, which took place from her late residence, Dobinson street, yesterday afternoon. At the house Rev. Dr. Reid conducted a very impressive service, making reference to the lovable and Christian character of the deceased. A wealth of floral offerings covered the casket. The following acted as pallbearers: W. Wilson, John Meaton, W. Walker and A. McLeod.

During the month 78 new motor cars have been registered in the province, making the total number of motor vehicles owned in British Columbia 1,178.

A. E. Todd and Ernest MacGaffey, secretary of the V. I. Development League, are to-day making a trip of inspection in Mr. Todd's car over the new Mill Bay road.

A special meeting of the Ladies' Aid Society of First Congregational church will be held at the home of the president, 1122 Johnson street, to-morrow at 3 p. m. A full attendance is requested.

Twelve more prisoners are on their way from New Westminster for incarceration in the Topaz avenue jail. With the arrival of these prisoners from the Royal City both jails will be filled to their capacity.

### PREMIER McBride Home.

Back From Visit to Fort George and Other Points in Interior.

Premier McBride returned this afternoon from a visit to Fort George and other points in the interior. He was accompanied on the trip by Hon. F. L. Carter-Cotton, of Vancouver; C. H. Lugin, editor of the Colonist; and a party of English capitalists.

The Premier addressed a series of public meetings and was banquetted at several points. The party was unable to reach Barkerville, however, rain having made the roads impassable. There is an enormous volume of traffic on the Cariboo road.

At the Quenel banquet the Premier said: "I am deeply impressed with the optimistic spirit of the settlers and their unshaken faith in this country. If they are not close to the main line of the railroad, they are happy to state that they are pretty close to a projected branch line. I predict a growth in the district similar to that in the Okanagan, Kootenay and more southern districts. The attention of the financial centres of the world are upon British Columbia and its undeveloped resources, and I warn my companions of the trip that unless London gets a hustle on Berlin and Paris will have plucked the plums of advantageous investment here."

### NEW GRAND THEATRE.

There is a good hand-drawn bill shown at the Grand this week, with the trained cats and monkeys as the biggest thing for months for children. There are numbers of animal acts, and all the tricks the larger animals do these cats accomplish also. The Grazers, appearing in a top-dressing and musical performance, are strong public favorites. Jack Hallen and Solly Hayes win much applause for their comedy dancing turn. "Rained In," a playlet with Le Roy and Harvey appearing in the roles, is well received, and Miss Cora Simpson gets a good hand for her recitation and song programme she offers. Thomas J. Price sings a home life song for children, and the pictures make everyone laugh.

Dr. J. C. Speers of Toronto, a former pastor of the Metropolitan Methodist church in this city, will preach at that edifice on Sunday evening and on the following evening will deliver a lecture under the auspices of the Ladies' Guild of the Metropolitan church. The subject for the lecture will be "Singers and Songs—Grave and Gay." This has proved a most popular lecture, Dr. Speers having given it over

### F. O. E.

### ASTORIA REGATTA.

Astoria, Ore., Aug. 31. — The second day of the Astoria regatta was an unfortunate one for the speedy motor, the Seattle Spirit. In the second heat of the race for the championship of the Pacific coast the Spirit broke down while running neck and neck with the Wolf No. 2. As a result the heat ended like the first heat, with Wolf first and Pacier No. 2 second.

The second heat of the 25-foot speed boats ended the same as the first day. Happy Heine won, with Coyote second. The races were run over a 20 mile course. The Silvia won the handicap speed boat race over 20 miles. The entries were the Wigwag, Greenhorn, Marlutan and Syph.

### TWO PRACTICE GAMES BEFORE BIG MATCH

Team to Meet the Westminster  
Amateurs Will Be Picked by  
Committee Saturday

The lacrosse twelve that will meet Westminster at the Royal park on Monday next, Labor Day, will be selected before the match by the selection committee of the local clubs.

As the match takes place on Monday, the committee last night decided that

two practice games will be played this week, one to-morrow night and the other on Saturday.

The form shown by the men on these occasions will decide the chances of the team being included in the match on Monday. The proposal advanced by lacrosse men that the North Ward team should play the Royal City players was discussed. The majority of the members, however, felt that North Ward was not sufficiently strong without the assistance of players of outside clubs, and the other clubs would not consent to having North Ward play under its club name with members of other clubs in its ranks.

The team will be selected Saturday night after the last practice game has been played.

### TENNIS HANDICAP

#### MATCHES PROCEED

#### Victoria Club Members Getting on Towards Finals of Annual Event

Another day's play in the Victoria Club tennis handicaps was put through yesterday, matches in all the classes taking place. The results of the matches are as follows:

**Ladies' Doubles.**  
Miss Combe and Miss G. Pitts, plus 15 3-6, beat Miss Page and Miss Macdowell, plus 30; 7-5, 6-3.

**Ladies' Singles.**

C. Schwengers, owe 20, beat F. B. Pemberton, plus 3-6, retired.

### BIRDS BEING SHOT

#### IN SPITE OF LAWS

#### Game Wardens Not Making Arrests—Illegal Shooting Reported From Many Points

The non-observance of the game laws, the non-protection of the game by the game wardens, the frequent killing of birds at the present time, and the apparently easy avoidance by poachers of the men who are given authority to arrest offenders, are subjects of much talk in Victoria among sportsmen, and are substantiated by reports that come from practically every shooting district around Victoria and up the Island.

The question is, where are and what are the game wardens doing? The provincial government recently appointed a deputy game warden for Vancouver Island, whose place presumably would be at this time of the year particularly where the builders are. The game warden, however, has spent a lot of his time in Victoria, and during his absence from the country the illegal shooting of birds has been going on uninterrupted.

The appointment of the new game warden, a Vancouver man, was made by Bryan Williams. There were a number of Victorians who applied for the vacancy in the game protective service, and these feel incensed that a mainland man was selected for the position.

Saenich, Highlands, Cowichan, and Sooke all report that illegal shooting is taking place in a wholesale fashion.

### LAST FUTURITY RUN

#### AT SARATOGA TO-DAY

#### New Anti-Betting Laws Go Into Effect To-morrow—Novelty and Bashti Favorites

Saratoga, N. Y., Aug. 31.—With the running of the great Futurity to-day, which probably will ring down the final curtain on racing in New York, Saratoga has for a day, assumed its old-time racing gaiety. Crowds of people attracted by the turf classic have thronged to the city in anticipation of the great event. Everywhere people are discussing the race and the chances of the various entries.

For the first time since the first Futurity was won in 1888 two horses will go to the barrier equal favorites, Hindriks Novelty and Whitney's Bashti are dividing the honors.

Thirteen other horses will face the starter for the race, which carries a purse of more than \$25,000 for the winner and nearly \$10,000 more for the other contestants.

The new anti-betting laws passed at the last regular session of the New York legislature go into effect September 1st. It is expected that this law will put an end to racing, and it is believed the big tracks here and in New York will be permanently closed.

The entries, weights, jockeys and probable odds for the Futurity to-day are:

Babbler, 120, Archibald, 12 to 1.  
Footprint, 119, Dugan, 12 to 1.  
Touch Me, 123, Herbert, 109 to 1.  
Rockville, 119, Kogmer, 15 to 1.  
Bounce, 119, Walker, 49 to 1.  
Swannoon, 19, Keloe, 50 to 1.  
Novelty, 127, Shilling, 7 to 5.  
Textile, 123, Knapp, 6 to 1.  
Bashti, 123, Garner, 2 to 1.  
Love Note, 114, Butwell, 30 to 1.  
Swacaway, 116, Glass, 20 to 1.  
Iron Mask, 126, Notter, 6 to 1.  
Naushon, 126, Musgrave, 4 to 1.  
Zeus, 119, Thomas, 7 to 5.  
Blackfoot, 119, Powers, 30 to 1.

A French chemical works claims to be extracting twenty-seven and a half gallons of alcohol and forty-two pounds of acetic acid from each metric ton of sawdust and to sell the residue, after pressing into briquettes, as fuel.

## SNAPPY NEW AUTUMN APPAREL

The most EFFECTIVE DISPLAY of PROPER CLOTHES we have ever asked you to look over. ### PHILADELPHIA AND

#### CHICAGO CUBS LEAD

#### Form Indicates These Two Clubs Will Win the American and National Titles

Those fans who intend taking in the world's championship baseball series might as well purchase their tickets for Chicago and Philadelphia at once, for it is a cinch the National and American league representatives respectively of those two cities will battle it out this season for the coveted title.

Pittsburg looked dangerous for a time, but defeats last week and Chicago's victories practically put the Pirates out of the running, while Philadelphia has been a consistent performer all season and will hardly be headed.

For a couple of years past the race in one of the other of the two big leagues has been close as a summer hair cut. This season, however, both the Athletics and Cubs have shown class both at home and on the road and beyond all doubt they are the most worthy representatives playing the game. They now have such a big lead that what was expected to be a race has been turned into a procession.

The element of luck certainly is with the Athletics this season. They are having more of it than any other team in either league. Their regular club has been in the game right along. The best players haven't been out for any time to speak of and they have good utility men to fill in when the others are forced to lay off.

About half the Chicago White Sox profess to believe the Mackies will win the world's series if the Cubs are their opponents. They think Chief Bender, Jack Coombs and Eddie Plank can trim Chance's people, or at least prove extremely troublesome to the P. L.'s bunch. It is their opinion that Paddy Livings will do most of the catching in the series and that he is being pointed for that now. There isn't a Sox who doesn't consider Paddy the best of Mack's catchers.

Those who are predicting a Cub victory if the two teams meet, base their prophecy on the superiority of Chance's catchers more than anything else. They assert that Kling and Archer will put an awful crimp in Collins and Oldring on the bases and that the

Philadelphia backstops will not prove any more effective than Detroit's did in the series of 1907 and 1908. They figure the pitching strength of the two teams to be about even, give the Athletics a shade in batting and the Cubs a shade in fielding and "noodle." Of course, the Sox are not pulling hard for the Cubs to win the National league pennant, for that would mean no city series, and no city series would mean no extra money and no chance for revenge.

Pittsburg, Pa., Aug. 31.—Fred Clarke, manager and captain of the Pittsburgh champions of the National League, announced to-day his retirement from baseball for the remainder of the season and probably forever.

Clarke's move is regarded as proof that the Pirates are hopelessly out of the running in the National League pennant race. It is believed that the retirement of Clarke is the result of bitter criticism of him by the fans of his home city.

### UNOFFICIAL YACHT

#### RACE ON SATURDAY

#### Exciting Contest is Promised—V. Y. C. Smoker and Prize Distribution Arranged

Local yachtsmen are looking forward to Saturday next with considerable interest. In the afternoon there will probably be a race between a number of the larger yachts for a handsome prize, which William Piggott has generously provided, and in the evening a smoker at the V. Y. C. club-house, at which the prizes won in the last two regattas will be awarded, several important matters discussed and a good programme provided.

The Saturday's race will not be an official one, its arrangement being due to the secretary, D. O. Rochford, who has induced several of the members to enter their boats for a handicap event which will wind up the season. The course and handicaps will be arranged at the end of the week and given good weather, an exciting contest should result. So far the Gweno, Alisa, Clytie, Truant and Varuna are entered.

Discussion of the year's events, the progress which the club has made and the building of a challenger for the Alexandra cup will be among the most interesting features of the smoker, which will be the first to be held in the club's comfortable club-house. The concert will be opened at 8.30 p. m. and a big rally of yachtsmen is expected.

### ALBIONS HAVE TWO

#### MATCHES ON SATURDAY

#### Votes of Thanks Passed to Help-ers and Committee of Ladies For Work During Week

The Albion cricketers not at all discouraged by the poor showing made by their team in the cricket tournament last week, will be playing two matches this week-end.

One eleven will meet the Garrison Cricket Club in the Work Point barracks ground, and the other team will play a return match against the Esquimaux eleven on the Beacon Hill ground.

At a meeting of the executive committee of the Albion Club held on Monday evening last a very hearty vote of thanks was passed to Mrs. Robert White and Mrs. Sissons for their kindness in superintending the luncheon arrangements throughout the week of the tournament, and also to Mrs. O. Hallam, Mrs. F. Bolton, Mrs. E. A. Duncan, Miss Sissons, Miss Margaret Loat and other ladies, who so kindly assisted by providing cakes and helping to serve afternoon tea.

#### A FOOTBALL ROMANCE.

Seattle, Aug. 31.—When Donaldson Graybill was captain of the Queen Anne High school football squad last year he was the hero of all the dear co-eds, and one pretty miss, Mildred Stein, wrote many excited verses to the hero. The sequel came today in the announcement that Graybill and Miss Stein were secretly married last month in Vancouver, B. C., and have been spending their honeymoon in a canoe on Hood canal. Graybill's parents are wealthy.

The depth to which the sun's rays penetrate water has been recently determined by the aid of photography. It has been found that at a depth of 555 feet the darkness was to all intents and purposes the same as that on a clear but moonless night. Sensitive plates exposed at the depth for a considerable length of time gave no evidence of their action.

## HEALTH OFFICER MAKES REPORT

### MAKES INVESTIGATION OF PREVALENT EPIDEMIC

Some Precautions Which Will Be  
Helpful in Warding Off an  
Attack of Dysentery

Dr. C. J. Eagan, secretary of the provincial board of health, yesterday presented to Hon. Dr. Young the following interim report of investigations conducted by him into the causes of the prevailing serious epidemic of dysentery in the northwest cities:

"The ages of the affected vary from infancy to 75 years, being as per reports from ten practitioners, 22-2 years and under; 42, from 2 to 15 years; 31, from 15 to 40; eight, from 40 upwards. The disease is not restricted to any particular place. Such a number of adults being attacked is unquestionably unusual, and shows that the causes of the trouble are of more virulent character than generally to be found in conditions causing infant diarrhoea.

"Epidemic diarrhoea is something that has given sanitarians great concern for many years, and its cause has been discussed in many places. One point is universally agreed upon: that climatic conditions always are present when these attacks prevail. Lengthened drought in hot seasons is now accepted as being almost certain to be followed by epidemics. The cause of this is clear. The earth becomes heated, and the temperature of the ground, extending down sometimes to a foot or a foot and a half, shows a warmth of from 55 to 57 F. Such conditions are most favorable to the development of bacteria, and when the surroundings are filthy, certain bacteria are developed that are undoubtedly irritants to the intestinal canal if admitted to it.

"Here, then, we have myriads of bacteria developed, of various kinds, depending on the surroundings. These are gathered from the surface, and carried by the feet by the blowing of dust, and by flies, around and into the houses. As said above, many kinds of these bacteria develop through ferment-

temperature.

cient the development of germs in milk will be enormous. The remedy is plain: Keep the milk covered and so protect it from flies and dust. Keep it cool and so prevent multiplication of bacteria. Again water, unless of the purest, is liable to multiply its germs, and so become an unhealthy drink. In my opinion all these conditions have contributed to the present epidemic, and the main cause is the enormous number of bacteria developed in the soil and made malignant by the presence of filth.

"I sincerely trust that the present apparent change in the weather will soon be in evidence. If the coolness continues these germs will further develop from the ground sources, and a strong rain will wash away the germs and stop the spread of the disease.

"It is evident, if the above conclusions are correct, that in the prevention of this summer disease, certain precautions can affect a great deal. Attention to the following hints would save many infants' lives:

"1.—Do not wear your infants during the months of July, August and September. To begin artificial feeding during the hot weather is very dangerous.

"2.—All milk should be pasteurized or even boiled before being given to the infant. Milk and water, and still more, patent foods, if left two or three hours, go bad, and are then very highly dangerous to the infant.

"3.—All jars or other vessels, for keeping milk must be sealed and kept absolutely clean.

"4.—The feeding bottle should be thoroughly scalded after each meal.

"5.—The use of 'comforts' is un-

## GREEN GOODS MEN COME ACROSS BORDER

Big Scheme of Counterfeits is  
Said to Have Been Nipped in  
the Bud

(Times Leased Wire.)  
Portland, Ore., Aug. 31.—Their gigantic schemes to swindle people of the northwest through the operation of a "green goods" game frustrated, a gang of swindlers recently fled to Canada where, it was learned to-day, federal agents are watching them and will arrest them should they cross the interior border into the United States again.

According to federal officials half a carload of letters were mailed recently from the Salt Lake, Utah, post office to persons in Oregon, Washington, Idaho and Montana. Each letter contained a newspaper clipping in which the government was said to have become worried over the loss of a plate for printing \$1 bills.

The intimation was given that the note was in possession of an E. F. Grant, whose name was signed to the letter, and that he could supply large quantities of genuine money at a big discount.

Grant asked that all replies should be sent by telegraph to El Verado, a station on the line of the Southern Pacific, where the operator is the only inhabitant.

Federal officials received copies of the bait letters and immediately placed expert government operatives at El Verado and in all Western Union offices where messages could be relayed to reach that point.

The bunkmen soon learned that something was wrong and escaped to Canada, where they have been located.

**WARNING TO TAFT.**  
Bryan Tells Him He Should Be More  
Respectful to Democrats.

Indianapolis, Ind., Aug. 31.—Expressing the belief that President Taft should speak more respectfully of Democratic principles in past campaigns, William J. Bryan to-day discussed the President Taft letter on the issues of the coming congressional campaign.

"The president has written congressmen a letter in which he strives to

## ROOSEVELT ON RIGHTS OF THE CORPORATIONS

Will See They Have Justice But  
They Must Get Out of  
Politics

Pueblo, Colo., Aug. 31.—Col. Theodore Roosevelt paid a flying visit to Pueblo yesterday, laid corner stone of the new Y. M. C. A. building, went back to his train and departs for Oswatimie, Kans., where he will arrive at 9 o'clock to-morrow morning. At Colorado Springs Roosevelt repeated remarks made in the East, saying:

"I believe in doing justice to corporations. They are entitled to their rights and should be protected, but they are not entitled to a vote or entitled to own any public servant. I will help protect corporations against crooks who would blackmail them, and against the visionaries and demagogues who would wrong the people by attacking them improperly.

"I will do everything in my power to take corporations out of politics. To break up the action of crooked business and crooked politics we must insist not only on getting justice but on doing justice. Do not trust the men who will resort to blackmail. If they do that they will do you if they get a chance. Stand by the clear-headed man—above all by the man whose deeds make good his words."

## DEPUTY SHERIFF KILLED

San Francisco, Aug. 30.—Deputy Sheriff Walter Bryant died to-day at the Central Emergency hospital, from a bullet wound in the abdomen, following his shooting by J. E. Hopkins, a city jailer, in the early morning hours at the Ferry building. Before his death Bryant made a statement exonerating Hopkins from all blame.

## FRUIT CROPS ASTONISH

(Special to the Times.)  
St. Catharines, Ont., Aug. 31.—The Bristol business men visited St. Catharines yesterday and were entertained on an auto trip around the city and district by the board of trade. They expressed themselves astonished at the fruit-growing industry, especially the peaches and grapes.

## \$1500 a Year for Expert Book-keeper

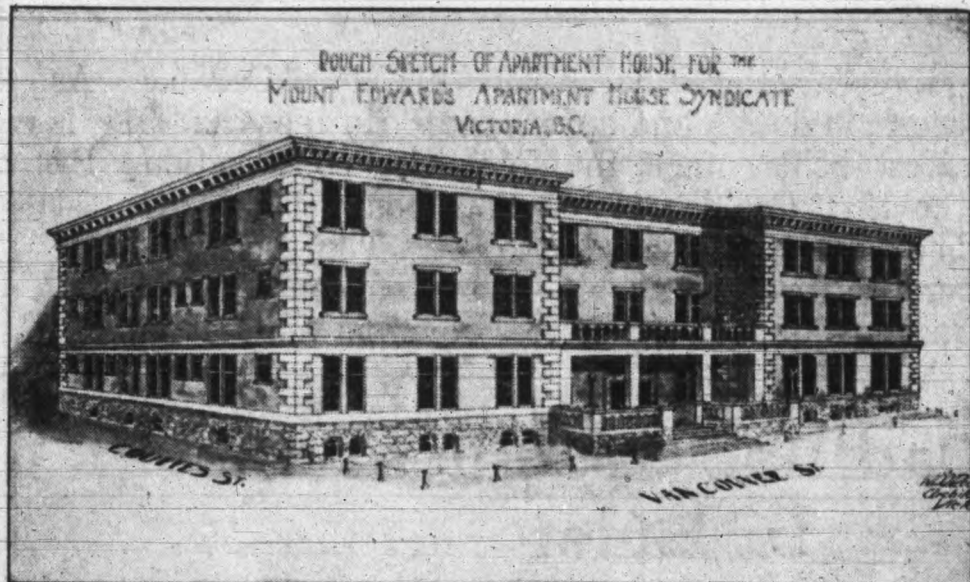

A short time ago we were favored with a call from one of our accountancy students who resides in the United States. In the course of his chat with us, he stated emphatically that he would not be able to hold his present position were it not for the knowledge he had gained from his course in Accounting with us. He makes \$1,500 per year.

This is proof that we teach our students how to do practical work. Many of them are making more than the amount stated above, but they are still anxious to rise higher. "WOULD YOU LIKE TO RISE HIGHER IN THE ACCOUNTANCY PROFESSION? WHICH HAVE SUCCESSFULLY PREPARED CANDIDATES FOR THE C. A. DEGREE. OUR RECORD IS PROOF. Write for our booklet, "Higher Accounting." It will show you how.

We prepare candidates for the Institute Exams. in any Profession.

VICTORIA, B.C.

tation and decomposition of food stuffs. These foods when ingested cause irritation and diarrhoea follows, depending in intensity upon the amount of decomposition and the character of the bacterial poisoning. Certain constitutions are able to resist, whereas others are more liable to the attacks. From conditions that I personally have observed, and from what has been reported to me by members of the medical profession, I am satisfied that much of the present trouble could be avoided.

"The bacteria developed from decomposing dead organic matter are most hostile to the human frame. Here then is a matter of simple common sense, and the observance of ordinary cleanliness will prevent much of the misery that exists to-day. My view of the present conditions is that the trouble comes from various sources: Foods during the summer months are particularly liable to decomposition; as a result of this decomposition, ptomaines are formed, and as above stated, when admitted to the stomach will cause irritation and consequent diarrhoea. Another cause is milk. This article is a splendid means for the development of bacteria, and provided the heat is suf-

healthful, and when they fall on the floor they are dangerous and frequently the cause of diarrhoea.

"A few general points for the benefit of all:

"1.—Decomposing refuse, such as decaying vegetables, bones, fish-heads, etc., is a fertile source of diarrhoea. It should be burned—not put in the dust-bin.

"2.—Scrupulous cleanliness of the house—especially of all rooms where food is stored—is most important. Dust in every form is dangerous to health, and for removing it wet cleaning is preferable to dry. Thus washing and scrubbing are safer means of cleaning floors, etc., than sweeping.

"3.—All food should be kept in clean, dry places, and be kept covered, so as to protect from flies and dust.

"4.—Milk should be kept on ice if possible, and absolutely protected from flies and dust.

"5.—When sewerage systems are not available, dry earth or ash closets should be used, with coverings to prevent flies from being present.

"6.—When in doubt as to conditions of water supply, boil all water used for drinking or vessel cleaning."

bring together the factions of the Republican party," said Mr. Bryan. "I do not believe he realizes how wide the breach is and that such measures are insufficient to heal the wounds. The letter indicates that Taft now believes it is wise to reduce the tariff by separate bills, and not by a general measure. When we tried to do this in 1892 the Republicans ridiculed us. Probably hereafter they will speak more respectfully of this and other Democratic policies."

## MENTAL HEALING FAILED.

Owner of House Is Now Charged With Cruelty.

Los Angeles, Cal., Aug. 31.—Martin J. Beckins, Democratic candidate for state senator and president of the Beckins Van and Storage Company, will be tried on Sept. 27 by a jury on a charge of cruelty to animals.

Beckins was arrested by an officer of the Society for the Prevention of Cruelty to Animals. It was charged that a horse he owned died of the colic as a result of his refusal to give it medicine. According to the society Beckins tried mental healing on the animal without the desired results.

This is one of the first cases on record in which prosecution has followed an unsuccessful attempt to heal a dumb animal by mental treatment.

## INDICT MEAT TRUST.

Cook County Grand Jury Make Presentation Against Packing Companies.

Chicago, Aug. 31.—The federal grand jury to-day completed its work. It is reported that indictments have been found against twenty individuals and companies comprising the so-called meat trust.

Secret service men have reported that three prominent packers have gone to Europe.

Assistant Attorney-General Kenyon will go to Washington to-night carrying a transcript of the evidence on which indictments are known to have been found against the Armour Packing Company, the Nelson Morris Packing Company, the Hammond Packing Company, the Swift Company and the National Packing Company.

The Amalgamated Development company has got producing oil wells—not prospects. To buy stock in the Amalgamated company is therefore an investment, not a speculation.

### SOCIAL AND PERSONAL

W. Piggott left to-day on a trip to Mexico.

G. W. Kirby is spending a few days in Vancouver.

Dr. E. Hall left on a business trip to Vancouver last night.

D. O'Sullivan has gone over to the Terminal city on a business trip.

F. H. Clendenning returned to Vancouver last night on the Beatrice.

T. Hooper crossed over to Vancouver last night on the Princess Beatrice.

Mr. and Mrs. W. C. Brown, Bay street, are visiting friends in Vancouver.

Capt. Gosse arrived from Seattle yesterday afternoon on the Princess Victoria.

W. W. Duncan went over on the Princess Beatrice to Vancouver last night.

Miss Dunbar was among the passengers on the Victoria yesterday from the Sound.

E. E. Welch went over on the Princess Victoria yesterday afternoon to Vancouver.

D. M. Rogers was among the passengers on last night's Princess for the Terminal city.

Miss Irene Rowe has returned to her home in Nanaimo after a visit with relatives here.

Miss Fawcett, of the government office staff, Kalso, is holidaying with relatives here.

Messrs. P. B. Johnson and S. Ellis are leaving for Colorado to attend the school of mines.

B. Rogers was among the passengers on the Princess Beatrice for the mainland last night.

Robert Mellis and daughter, Miss F. H. Mellis, Vancouver, are visiting with Mr. and Mrs. Jas. M. Mellis.

W. Stevens returned to this city yesterday afternoon from Seattle, where he has been for several days.

Dr. Chown, general superintendent of the Methodist church, left on his return trip to Toronto yesterday afternoon.

Robert Mellis being indisposed, would be pleased to see any of his friends at his son's home, 113 Ladysmith street.

Rev. William Briggs, who has been attending the general conference here, left last night on his return to Toronto.

Robert Mellis and his daughter, Miss M. Mellis, Vancouver, are the guests of his brother, James Mellis, 113 Ladysmith street.

Van. Archdeacon and Mrs. Scriven, who have been for some time the guests of Mr. and Mrs. J. W. Watson, Ladysmith, will return to town shortly.

Peter Johnson and Duncan Ellis, two high school graduates, left yesterday afternoon on the Princess Charlotte en route to Golden, Colo., where they will attend the mining college.

Robert Marpole, western executive agent of the C. P. R., accompanied by Mrs. Marpole, arrived from Vancouver yesterday and is registered at the Empress hotel.

Mrs. J. Brooker and her daughter, Miss Bella Brooker, arrived from Vancouver yesterday to attend the wedding of Miss Daisy Ware, daughter of Mr. and Mrs. C. Ware. While here they are the guests of Mr. and Mrs. Wyatt, Pandora street.

Bell-Smith's two large paintings, representing evening and morning scenes at the little Indian fishing village, Alert Bay, which were purchased by the provincial government and hung in the lobby of the museum here, are attracting a great deal of attention.

At "Broadbalt" Monday morning Rev. Dr. Campbell celebrated the marriage of John Sutherland, of Vancouver, and Maggie, eldest daughter of Wilfrid Nichols, of this city. After the honeymoon Mr. and Mrs. Sutherland will make their home in Victoria.

The many Victorians who met Dr. Helen McMurchy, of Toronto, during her stay here last summer, will be pleased and interested to know that she has recently been appointed to the permanent international committee of the congress of hygiene at Paris. This

is the first time that a woman has ever received this honor, and Dr. Sutherland Brunt, London, Eng., in urging the appointment of Dr. McMurchy, said she had done such splendid work in hygiene that a place on this committee was the least recognition the congress could show her. She is the author of a book "Infant Mortality," which is attracting much attention in London. While in Victoria Dr. McMurchy was the guest of honor at a large reception held in the Alexandra Club rooms.

Robert Scott is revisiting his former home at Ladysmith.

Miss Geraldine Starr is spending a fortnight with friends in Vancouver.

Mrs. Wm. Tyrell, Toronto, who is touring the west, is a visitor here at present.

Mr. and Mrs. James Murray, whose marriage took place recently in Nanaimo, are spending their honeymoon here.

Miss Edna Dack returned home yesterday from Vancouver where she has been the guest of her brother for the past month.

Mrs. Alfred Carmichael, infant and maid, are in Victoria from Port Alberni for a visit and are registered at the Criterion hotel.

Miss A. M. Starret, Vancouver, is holidaying here with her friends, Mrs. Bain and Miss Bain, Seattle, and the Misses Pullman, Montreal.

The oil company that has got oil—The Amalgamated Development company.

## If You Intend Buying a Diamond

You will find that the Challoner & Mitchell establishment offers you the largest and choicest assortment in the West. Our supremacy in this particular line is beyond a doubt. Not only are you offered the largest variety to choose from, but we also offer them to you at the closest prices, for the simple reason that we buy direct from the cutters.

Diamonds Enter Canada Duty Free. This Will Interest Tourists.

## The Evening Chit-Chat

BY RUTH CAMERON

Can you talk small talk? If you can, be thankful.

If you can't suppose you learn to. I don't believe you will regret the effort.

It is splendid to be able to talk well on deep and important subjects, but that ability does not by any means do away with the need of being able to talk lightly and easily on unimportant subjects. And the man or woman who considers that it does and despises small talk, I think makes a great mistake.

Small talk is the small coin of social intercourse, and as such no one can afford to be without it.

It is splendid to have a wallet stuffed full of twenty and fifty dollar bills and big cheques, but it is decidedly inconvenient to have no smaller change.

Yes, of course, one would prefer to have the bills and go without the small change to having things the other way around, but why not have both?

Some years ago a young newspaper man of decided genius, a brilliant conversationalist when talking on some of his favorite subjects, came to call on me.

I introduced him to my mother, and what do you suppose his first remark after the "Pleased to meet you" was?

"Would you like to know my idea of the universe?"

And forthwith he expounded it to her.

Imagine it. His idea of the universe was rather original, and worth hearing, to be sure, but wasn't his offering it as an opening remark about as absurd as passing your new baby a hundred dollar check to pay for your morning paper?

Now I certainly wouldn't want that man to lose one bit of his originality and depth of thought, or the least iota of his ability to talk fascinatingly on deep subjects, but I do think it would smooth his future path for him if he could learn to talk small talk on occasions.

To be able to talk witty and sparkling small talk is a fine art—a genius before which I bow in deep admiration.

I listen to people who can do that with the same enjoyment with which I watch a game of tennis between skilled players.

That, however, is a gift. We cannot all possess it.

But by conscientiously forcing ourselves to practice it whenever occasion arises, I think we can all learn to talk decently creditable small talk.

And don't you think that's worth while?

**THE ADVANCE MAN**

Majestic Theatre.

A lively bit of real life illustrates what occurred on the "Circle A Ranch."

Spanish girls are represented generally as pictures of unrequited passion or

SILK COAT SUIT.

Paris has put the stamp of approval upon silk coat suits, and many charming models have been sent across for early fall wear. Here is one, very good looking, in a rich shade of purple striped with a harmonizing shade of lilac. The skirt is perfectly plain and quite narrow; the coat of hip length is also plain, with flat collar and revers and pocket flaps. A chic finishing touch is the lingerie knitted collar falling in jabot effect to the end of coat revers.

jealous rage. This unfortunate seems to be afflicted with both disorders. It leads her to commit a serious offence and almost separate a girl and her lover. It is almost unnecessary to describe all that happened, yet in the picture itself these occurrences form an integral part of the story. It is a melodrama, rather overdrawn, yet lively and interesting because the characters do something. "Old Loves and the New" illustrates how a girl who believes and practices the old saying, "Absence makes the heart grow fonder of someone else," can make a mistake. In this instance the two men whom she has encouraged meet in South Africa under romantic circumstances and there learn of the girl's duplicity. The sequel is interesting. "A Hawker's Romance" is intended to show that when a man makes love to a girl beneath his station in life he should make it his duty to carry out promises and not be swayed by motives of convenience. The story illustrates this argument in a very realistic way. "The Hungry Motor Car," a comedy, completes the bill.

lous work, besides millions that are secured through their efforts in state and municipal appropriations. Mrs. Rufus P. Williams is the chairman of the department that directs this work.

In addition to the work of the General Federation of Women's Clubs, the public health education committee of the American Medical Association, composed largely of women physicians, has carried on an educational campaign of lectures during the last year, in which thousands have been reached. The Mother's Congress, the Young Women's Christian Association and many unattached clubs bring the number well over a million. There is not a state in the Union where some work has not been done.

DISCUSSES EXCURSION  
TO HAWAIIAN ISLANDS

**Suggestion That Steamer Prince Rupert May Make Voyage During Winter**

There is a probability that the Grand Trunk Pacific steamer Prince Rupert may be taken off the northern run for a short time during the winter in order to carry a business men's excursion to Honolulu. The party is being organized in Seattle, and for a week past the proposed excursion has been the talk of the waterfront, speaking of it the Seattle Post-Intelligencer says:

"In response to a request from C. H. Indell, secretary of the Seattle Chamber of Commerce, Capt. C. H. Nicholson, of Vancouver, B. C., manager of the Grand Trunk Pacific steamships, has been told by the English insurance underwriters who have insured the vessel for the winter traffic only, that they will permit her to make the trip provided she is properly chartered."

"A year ago the Northwest commercial bodies received an invitation from the Honolulu Chamber of Commerce to visit that city, but the trip was not taken because a suitable steamer could not be procured at that time. Since then the two G. T. P. liners have been put into service. There is nothing real about this trip as yet, said C. H. Indell, last night. I merely asked the Grand Trunk Pacific people to find out if the insurance underwriters would allow the vessel to make the trip. Last year we were unable to accept the invitation and I hoped that this season we might be able to go. Everything in connection with it is in the embryo stage. I just want to find out if we can secure a suitable steamer before taking up the questions of representation and port allotments with the other Northwest cities."

"It is proposed to leave Seattle on February 1st and arrive in this city on the return trip February 28th. As it would take the Prince Rupert only nine days each way, this would leave ten days in the islands."

## SHIPPING REPORT

(By Dominion Wireless.)

August 31, 8 a. m.

Point Grey—Rain; calm; 1 tick seaward; 30.05; 57.

Cape Lazo—Rain; N. W.; thick seaward; 30.03; 55; sea smooth.

Tatoosh—Cloudy; S. W.; 8 miles; 30.08; 51; in, during night, 2-masted schooner; outside, bound in, two 4-masted schooners.

Ikeda—Clear; N. E.; 30.18; 56; sea moderate; Amur out, 6 a. m. southbound.

Estevan—Clear; N. W.; 29.90; 53; sea moderate.

Prince Rupert—Foggy; calm; 29.39; 54; sea smooth.

Triangle—Dense fog; N. W.; 24 miles; 29.47; 55; Otter passed here, 7.45 p. m. southbound; spoke Kingfisher, 7.10 p. m. at Cape Scott, fishing. Prince Rupert, at 10 p. m. in Queen Charlotte Sound, southbound; Quadra left Ek Island northbound 7 a. m. Fishing schooner Grant, at 8 a. m. southbound, in Queen Charlotte Sound.

Pachena—Cloudy; N. W.; 30.05; 54; sea moderate.

Point Grey—Rain; S. E.; thick seaward; 30.07; 56.

Cape Lazo—Cloudy; N. W. breeze; 30.05; 59; sea smooth.

Triangle—Cloudy; S. W. 10; 30; 23; m. schooner Comanche, 3.45 p. m. in, Shelton 11.30; out, Columbia 11 a. m. in, Belle of Scotland, 11.50 a. m.

Estevan—Clear; N. W.; 29.92; 57; sea moderate.

Ikeda—Clear; light N. E.; 30.23; 58; sea moderate.

Prince Rupert—Misty; light S. E.; 29.42; 52; set smooth.

Triangle—Dense fog; N. W. 27 miles; 29.56; 51; spoke Kamakura Maru 3.30 a. m. due here 11 a. m. northbound. Quadra at Cape Calvert 11.30 a. m. northbound.

Pachena—Cloudy; west, 30.05; 58; light swell.

## MOVEMENT OF VESSELS

Seattle—Sailed: Japanese steamer Jaaba Maru, for the Orient; steamer Queen, for San Francisco; steamer Humboldt, for Skagway; British steamer St. Nicholas, for San Francisco; steamer Arxyl, for San Francisco.

Arrived: Schooner F. S. Loop, from San Francisco; steamer City of Seattle, from Skagway.

None—Arrived: U. S. steamer Bear, from Bering Sea.

Valdez—Sailed: Steamer Bertha, for Seaward.

Ketchikan—Arrived: Steamer Cottage City, from Seattle.

Dunkirk—Arrived: Steamer Admiral Fourchon, from San Francisco.

Tacoma—Sailed: Chilean barque Royal Sovereign, for West Coast; steamer Columbian, for Honolulu.

Montreal—Arrived: Steamer Lake Champlain, from Liverpool; steamer Gramplan, from Liverpool.

San Francisco—Sailed: Steamer Drake, for Seattle; steamer Buckman, for Seattle; steamer City of Puebla, for Victoria.

Antwerp—Arrived: Steamer Augustus, from Portland, Ore.

Avonmouth—Arrived: Steamer Montmouth, from Montreal.

Hongkong—Sailed: British steamer Empress of China, for Vancouver on 27th.

Norfolk, Va.—Sailed: Steamer Bjornstjerne Bjornsen, for Puget Sound.

INPEACHING JOSEPH CHOATE.

Disatisfied Client Makes Serious Charges Against Great Lawyer.

Chattanooga, Tenn., Aug. 31.—A petition asking for the expulsion of Jos. H. Choate from the American Bar Association was filed today by James R. Watts, of New York. Watts filed formal charges against Choate, alleging that he had violated the confidence of his clients, among whom were himself and Mrs. Watts.

It was also alleged that Choate had violated the ethics of the profession and the canons of the association, had been guilty of many offenses against good morals and fair dealing, and had brought disgrace and dishonor upon the association.

GRAND TRUNK  
PARTY EXPECTED

**DUE TO ARRIVE HERE  
ON PRINCE GEORGE**

**Will Spend Several Days in Victoria Combining Business With Pleasure**

Steamer Prince George is expected here this evening, bringing President Hays and party en route to Seattle, from which point they expect to return to Victoria Friday morning. They will spend a few days here.

While President Hays and party are here it is expected that something definite will be decided in regard to the proposed new Grand Trunk Pacific hotel, the site for which has been secured. The chief question in this regard now is to have much will be spent on the building and what style of architecture and material will be used. Tentative plans have already been drawn, and a final decision is expected to be made this week.

The letting of the contract for the new hotel is still being held up. Tenders were received for this work some time ago, but there is a difference of opinion among officials as to how much should be spent on it. A large amount of expenditure has been made, with the purpose of putting up a pretentious set of offices, but the company are of opinion that the present business does not warrant the erection of these for some little time. The hotel office which is to be built was to have been of a temporary nature, and this being so, it was not thought wise to spend too much money on them. In all probability the contract will be let either while the party is here or as soon as possible afterwards.

The officials of the company will meet the provincial government and discuss with them a number of matters of policy.

While in the north the party visited Prince Rupert and Stewart, and went over part of the timber-land being built up from Prince Rupert. Those aboard the steamer are: Charles M. Hays, Alfred W. Smithers, chairman of the G. T. P. E. J. Chamberlain, vice-president and general manager; Mrs. Chamberlain, Sir George D. Doughty, G. B. Hunter, Thornton Davidson, Miss E. Smithers, Hubert Smithers, H. Deer, assistant secretary; John W. Loud, freight traffic manager; J. C. Dalrymple, assistant freight manager; James Caruthers, Dr. J. Alex. Hutchinson, chief medical officer; D. E. Galloway, secretary to President Hays; N. Kinsella, secretary to vice-president; A. S. Loucks, secretary to freight traffic manager; Victor Paking, assistant secretary to President Hays.

## AN INVESTIGATION.

Captain Edie in City To-day Inquiring Into Wreck of Princess May.

Captain Charles Edie of Vancouver is in the city today conducting an investigation into the stranding of the C. P. R. steamer Princess May on Sentinel Island. Chief Officer John Richardson, and a number of the officers of the steamer arrived in the city yesterday in order to attend the inquiry. As the chief officer was on duty at the time of the accident, Captain McLeod then being in his bunk below, it was not necessary for him to come. Capt. Edie will report to the Marine Department at Ottawa.

Steamer Queen sailed this morning for San Francisco with 29 passengers from this port, among them being Mr. and Mrs. A. J. Polimeter and Mrs. Palmer's son, George Ramsay.

## AUSTRALIANS FEAR

## OPENING OF CANAL

**Will Give Greater Competition From Western U. S. and Canada**

"Does anybody know what effect the opening of the Panama canal is likely to have on Australian trade and commerce?"

The question was asked by the governor (Lord Chelmsford) at the annual dinner of the chamber of commerce at Sydney, Australia, recently.

The answer of prominent commercial men in Sydney, among them Mr. Geo. A. Parker, agent for the U. S. and A. S. S. Company's line of steamers, and Mr. B. M. Terry, (R. W. Cameron & Co.), is that Australia is likely to be affected chiefly by greater American and Canadian competition for supplying foodstuffs to Europe. We have it on the authority of Mr. Geo. A. Parker, the chief engineer engaged in the Panama project, that the canal will be passing through the canal in 1915. At the present time food projects exported from San Francisco, on the west coast of America, have to travel over 13,200 miles of water to reach the European markets. With the completion of the Panama canal the distance will be shortened to 7,500 miles, as against over 12,000 from Australia. The shortening of the sea route through Panama from England to the east also threatens the Australian coal trade, and opens up a further field for competition. New Zealand likewise stands to benefit, as the short cut through Panama will enable her to get food exports quicker than Australia to Europe. In other respects, so far as Australian trade is concerned, these gentlemen think that the position will be in statu quo.

The Panama canal will in no way shorten the trip from London to Australia. The distance via Suez is 11,200 miles, and via the Cape of Good Hope 12,400 miles. By way of the Panama canal it would be 2,520 miles. The journey from New York to Sydney, however, will be considerably lessened, a ten-knot steamer saving from eight to twelve days. The American manufacturer and the Australian importer are pointed to as chiefly likely to benefit in this respect. It is thought, nevertheless, that the Panama dues may be so heavy at the outset that tramp steamers will continue for a long time to travel via Cape Horn.

In regard to Australia's eastern trade the collective opinion is that the cut through Panama will not affect it at all. Foodstuffs are what we chiefly send and already there is strong competition from the west coast of America. Such rivalry as Australia will have to encounter in the future will still come from there, as it is manufactures that are chiefly exported from the eastern side. We are a little nearer to the eastern markets than the United States and Canada, as the following figures show:

Sydney to Yokohama. 4,420 miles.  
Sydney to Hongkong. 4,400 miles.  
San Francisco to Yokohama. 4,480 miles.  
San Francisco to Hongkong. 4,440 miles.  
Vancouver to Yokohama. 4,600 miles.  
Vancouver to Hongkong. 4,160 miles.

## WRECKAGE FOUND

## NEAR CAPE COOK

Prospector Tells of Seeing Cabin of Ship and Hand Fog Horn on Beach

Wreckage has been picked up on the West Coast in the neighborhood of Cape Cook, according to F. M. Kelly who returned a couple of days ago on the steamer Tees. A prospector who was along the shore there found the cabin of a ship and a hand fog horn, such as is used by boats or similar boats. There was nothing about the wreckage to indicate to what vessel it belonged, and there was a vagueness in the report as to what the dimensions of the cabin were. The prospector who gave the news to Mr. Kelly could not describe it, although he had with him the fog horn as an earnest of the tale he told.

## KANSAS REPUBLICANS.

Topeka, Kas., Aug. 31.—The Republicans of Kansas today adopted a platform pledging Kansas congressmen to vote for conservation measures along the lines of the "Roosevelt" policy as against policies laid down by those hiding behind the worn out doctrine of states rights.

The Payne tariff law was declared unsatisfactory and a violation of party pledges. The Kansas platform also demands revision of the tariff, "using as a basis for the duties the difference between the cost of production at home and abroad, with a reasonable profit for the manufacturer added."

STABBED BOY FOR A CENT.

Milan, Aug. 31.—A ferocious Florentine named Sestini has just been committed to penal servitude for life for stabbing a boy with whom he quarrelled about one cent. This crime was committed in 1902, but the murderer fled. He was found years later serving a long sentence in France. He had obtained work as a grave-digger at Marseilles, and had used his opportunities by disintering bodies and stealing jewels therefrom.

## STATE BENEFITS.

Los Angeles, Cal., Aug. 31.—Judge Rivers, of the Probate court ordered the estate of E. J. (Lucky) Baldwin to pay to the state \$247,000 inheritance tax immediately, so far as known this is the largest amount ever assessed against the heirs of an estate in California.

### FOOD OF THE WORLD.

Now that Russia has entered on a  
career of ownership-farming with the  
ownership incentive to increase her  
agricultural output, her agronomists, as  
the scientific exponents of land culti-  
vation style themselves, have compiled  
a table of what fruits of soil are the  
principal foods of humanity.

Bread grain, potatoes and rice form  
the staple sustenance of mankind.  
Two years ago, the date of the statis-  
tics, the leading countries of the world  
produced 129,000,000 tons of potatoes,  
74,000,000 tons of wheat, 39,000,000 tons  
of rice and 80,000,000 tons of rice.

Wheat is the chief basis of the na-  
tional nourishment of Englishmen,  
French, Spaniards, south Italians—in  
north Italy maize takes precedence—  
and Hungarians, and it holds complete  
supremacy in North America and Aus-  
tralia.

In German-speaking central Europe  
wheat has a large consumption, but  
not to the extent that it is used in the  
lands named; the principal food is  
rye bread, not because of the poverty  
of the people, but because its taste is  
better liked. In Russia rye bread has  
a decided lead.

Germany is the land of potatoes and  
rye. In 1908 she raised 46,000,000 tons of  
potatoes, more than a third of the  
world's crops and more than any other  
single country, even Russia, whose  
crop in her European territory was 29,  
000,000 tons. Austria and France had  
each a 14,000,000-ton potato harvest. The  
inhabitants of Celtic countries, in north  
France and Ireland, and also Belgium  
and Holland are great potato eaters. On  
the other hand, in England, Italy,  
Spain and America, and in Asia and  
Australia, the potato is a subordinate  
article of diet.

Rice is overwhelmingly ahead of any  
other food in Asia. In Europe it is  
scarcely raised. Germany used in 1907  
not quite 200,000 tons. Millet was once  
the daily food of the masses in Eu-  
rope, but has gradually been dropped  
and is eaten now mostly by the Slavs  
beyond the eastern frontiers of Europe  
and by the negroes in Africa.

—On and after September 1, James  
Waites, locksmith, will locate at 644  
Fort street, opposite Waites Bros. old  
stand, with new equipment for work in  
all branches of key and lock repairs.  
Umbrellas made, covered and re-  
paired.

—Everybody is pleased who is inter-  
ested in the Amalgamated Development  
company.

### PROGRAMME FOR THE SOUTH AFRICAN TOUR

Duke of Connaught Leaves Lon-  
don for Capetown on Oc-  
tober 10

The departure of the Duke and  
Duchess of Connaught for South Africa  
to perform the ceremony of opening  
the union parliament at Capetown has  
been definitely fixed for October 10th.  
The royal party will sail from South-  
ampton on the Union-Castle liner Bal-  
moral, and on the outward journey  
the vessel will anchor at St. Helena.

A stay of two days will be made at  
the island, where the Duke and Duchess  
will be the guests of the governor.  
Capetown will be reached on Octo-  
ber 31, and a stay of about a week will  
be made there, during which time His  
Royal Highness will perform the cere-  
mony of declaring the first parliament  
open. The royal party, at the conclu-  
sion of the week, will take train,  
which has been specially built by the  
Central South African railway, for the  
royal tour, and proceed to Bloemfont-  
ein. After a brief stay in the capital  
of the Orange River Colony, the royal  
party will proceed direct to Victoria  
Falls, reaching there about November  
12. A few days will be spent here, after  
which the journey will be continued to  
Salisbury, where the royal party will  
remain a day or two, and then go on to  
Bulawayo.

Leaving Bulawayo on November 23,  
Pretoria will be reached the following  
day. In the Transvaal capital and in  
Johannesburg, where the Duke will  
carry out numerous public engage-  
ments, practically a week will be spent  
in sight-seeing and visiting places of  
interest. It is proposed to leave the  
"Golden City" at the end of November.  
The following week will be spent in  
visits to Pietermaritzburg and Durban.  
Here the royal party will re-embark on  
the Balmoral, and England will be  
reached shortly after Christmas, prob-  
ably in the first few days of January.  
The King and Queen will personally  
attend at the London railway terminus  
to bid the Duke and Duchess "bon voy-  
age."

The death of King Edward has nat-  
urally curtailed the programme of  
festivities in connection with the royal  
visit to South Africa, but the journey  
of the Duke and Duchess will include  
some 3,000 miles of railway travelling,  
and comprise visits to most of the  
greatest South African towns, and it

will include innumerable ceremonies,  
such as the presentation of addresses.  
For the convenience and comfort of  
the royal travellers, a special train has  
been built by the Central South African  
railway. The construction of the train  
has been carried out at the Pretoria  
works of the Central South African  
railway, whilst the fitting up and up-  
holstering of the royal saloons has  
been primarily done in England. All  
the ingenuity of one of the leading  
firms of furniture makers has been em-  
ployed to secure for the Duke and  
Duchess the maximum amount of com-  
fort. Sir Richard Solomon, the high  
commissioner for South Africa, has  
had the responsible task of supervising  
the work before its transshipment to  
South Africa. Completed, the saloons  
are magnificent examples of the art of  
coachbuilding.

The royal train will be composed of  
ten coaches, each 60 feet in length. The  
order of the coaches as from the engine  
end will be as follows:  
1. Kitchen staff and baggage.  
2. Private coach.  
3. Duchess of Connaught's saloon.  
4. Duke of Connaught's saloon.  
5. Royal dining car.  
6. Observation car.  
7. First-class coach for suite.  
8. Dining car.  
9. Second-class car.  
10. Kitchen staff and baggage.

All the cars are accessible to each  
other by means of corridors.

The general arrangements of the  
royal train will be in blue. The day  
portion of the coach, which  
will be the rear half, will be furnished  
with a large settee, and two large divan  
chairs upholstered in light blue and  
cream silk brocade, and several smaller  
chairs covered with uncut silk velvet  
of a color to match. The coach is  
solidly built, with a double roof, in  
order to keep the saloon cool during  
the daytime, and every attention has  
been given to harmonizing the inter-

nal fixtures. The wall panelling is of  
South African walnut and Rhodysian  
teak, and the writing table and other  
small tables are made of the same  
wood. It is lighted by electricity, for  
which mercurial fittings of late Geor-  
gian design have been used. Soft deep  
velvet pile carpet of a light color has  
been laid. The coverings and hangings  
are also treated in light blue. The bed  
chamber, at the front of the coach, is  
elaborately fitted with wardrobes and  
dressing tables, and is generally treat-  
ed in white, with the exception of the  
carpet and hangings, which are of blue.

A bathroom adjoins the bed chamber,  
whilst adjoining this again is the  
maid's apartment.

His Royal Highness's coach is built  
on the same principle as that of the  
Duchess. The day saloon is composed  
of the rear half of the coach, and the  
sleeping saloon the front half. The  
general scheme of color treatment is  
in green silk and morocco. The furni-  
ture consists of couches at the front  
and back end of the saloon and divan  
chairs in the corners. Along the side  
of the saloon a large writing table has  
been fixed, and by its side is placed a  
smaller writing desk, whilst the centre  
is occupied by a table. The next  
two coaches will be occupied by the  
members of the Duke's and Duchess's  
suite. Each coach will be fitted at front  
and rear with a balcony, from which  
the country may be viewed.

ADVERTISING AND HOW IT PAYS.

One of the most remarkable cases  
of advertising success during the past  
decade or more is that of Duffy's  
Pure Malt Whiskey. While this medi-  
cinal whiskey has been before the  
American people since 1869, vigorous  
advertising was only begun eleven  
years ago, and during these eleven  
years this company has paid to the  
Daily newspapers of the United States  
about \$1,000,000 for advertising.

In an interview with Mr. W. B.  
Duffy, founder of the business, to  
whose knowledge and business sagacity  
the company owes its present high  
standing, in answer to the question,  
"To what do you owe your great suc-  
cess?" he said: "First of all, to an  
article of merit, skillfully and vigor-  
ously advertised. Duffy's Pure Malt  
Whiskey, made to comply with the  
test requirements of the U. S. Phar-  
macopeia, is an article of purity and  
worth, as attested by scores of testi-  
monials from physicians and chemists.  
It is made from carefully selected ma-  
terials and is as pure and clean a food-  
medicine as science and skill can pro-  
duce."

"I always felt that with a meritor-  
ous article, if one could have the cour-

end will be as follows:

1. Kitchen staff and baggage.
2. Private coach.
3. Duchess of Connaught's saloon.
4. Duke of Connaught's saloon.
5. Royal dining car.
6. Observation car.
7. First-class coach for suite.
8. Dining car.
9. Second-class car.
10. Kitchen staff and baggage.

All the cars are accessible to each  
other by means of corridors.

The general arrangements of the  
royal train will be in blue. The day  
portion of the coach, which  
will be the rear half, will be furnished  
with a large settee, and two large divan  
chairs upholstered in light blue and  
cream silk brocade, and several smaller  
chairs covered with uncut silk velvet  
of a color to match. The coach is  
solidly built, with a double roof, in  
order to keep the saloon cool during  
the daytime, and every attention has  
been given to harmonizing the inter-

age to use the daily press liberally,  
so as to acquaint the reader with the  
real worth of the article advertised,  
he would inevitably meet with suc-  
cess.

"Being a great believer in the power  
of the daily newspapers to convey to  
the public a knowledge of a needed  
article, I am convinced they are worth  
all other mediums combined."

"Of course, I know there are people  
who think they can advertise anything  
and make the people buy, without any  
regard to the merits of the article. In  
my fifty years' experience I have seen  
many advertisers start and make fail-  
ures; but this is not the fault of the  
newspapers, the fault lay with the in-  
ferior article and the advertiser's  
wrong conception of the judgment and  
intelligence of the American people."

"Advertising is a science, requiring  
knowledge and skill. Your copy must  
be convincing so as to attract the at-  
tention of the consumers, the rest de-  
pends on the standard of the goods  
advertised."

"In our experience, results from ad-  
vertising in the daily newspapers have  
been quick and satisfactory, and as  
long as we continue to sell Duffy's  
Pure Malt Whiskey, an article as good  
as represented, the Public Press will  
be the means of informing the public of  
the fact."

"I have always refrained from giv-  
ing interviews to the newspapers, but  
in view of the benefit we have derived  
from their powerful influence I feel  
justified in the present statement."

"While many are complaining of dull-  
ness of business, ours, during the past  
year, has been very satisfactory, due,  
no doubt, to the extra advertising we  
have been doing."

"For the coming year, beginning  
September, we propose to spend more  
money in advertising than was ever  
spent in any one year in the history  
of our business, and, from experience,  
we believe the returns will warrant the  
outlay."

## Cheap, But Good!

151-2—RUSSELL STREET, large lot, quarter acre, and four roomed modern cottage. Good  
location, close to cars, schools and store. Easy terms. Price.....\$1,575

45-1—BLANCHARD STREET, just outside the half mile circle. Good cottage of five rooms,  
bath and pantry, laundry tubs, modern conveniences; lot 55x130; lane in rear. \$500 cash.

## WE HAVE THE OIL!

### The Remarkable Progress of The Amalgamated Devel- opment Company

Has been unprecedented in the history of the Oil industry. Full  
title to all of this Company's immense holdings was not completed  
until the 20th of June—JUST TWO MONTHS AGO.

Since that date the Company has installed machinery for  
pumping two flowing oil wells. Has commenced and is already  
far advanced with the construction of a refinery on the ground;  
and has shipped NINE MILES OF PIPING to convey the product  
of their Oil Wells to tidewater.

Can This Record of Progress For Two  
Months Be Beaten?

The present week will see the stock of the Amalgamated De-  
velopment Co. quoted upon one or more of the local stock ex-  
changes. WATCH IT RISE.

### KIPLING'S HINT TO AVIATORS.

Rudyard Kipling makes some inter-  
esting suggestions in the Car for the  
protection of aviators when they fall.  
"As far as I can make out at pres-  
ent," he says, "men go up with less  
protection, except against cold, than  
the catcher of a baseball team, and  
with less bodyguards than an American  
football player. A little protection  
about the head and shoulders might

make all the difference between life  
and death at the moment of the smash.  
"The head, neck, and shoulder bones,  
being vital, could be given some sort  
of protection, if only for that fraction  
of a second which turns an irretriev-  
able smash into nothing worse than a  
horrid jar."

"I suggest a helmet of rubber inflated  
on the crown of the head, and round  
the back and over the collar bones—  
the whole need not be much heavier

than a wickerwork singletick mask.  
What you want is the protection of  
the neck against a backward or for-  
ward wrench."

## ADVISORY BOARD ON DEFENCE

## DUTIES OF IMPERIAL DEFENCE COMMITTEE

## Holds Important Position in Regard to All Matters of Imperial Protection

Writing in the London Chronicle on the "Imperial Defence Committee—What it is and what it does," John Leyland says:—The Committee of Imperial Defence is now recognized to be a body which holds a very important position in relation to all matters which concern questions of Imperial and national defence and the mutual relations and responsibilities of the naval and military services. Judging by the inquiries of Mr. Clough in the House of Commons on Wednesday, the position of the Committee is not generally clearly understood. Not so very long ago the Committee was brought prominently to public notice by the inquiry into the charges preferred by Lord Charles Bessborough against the Admiralty. It is important to observe that the Committee sits primarily, to advise the Prime Minister, and was not called into existence to deal with such cases as that of Lord Charles Bessborough, though it provides the machinery for doing so.

Practically the Bessborough report was prepared by a sub-committee of the cabinet, consisting of the Prime Minister and the four secretaries of state who are members of the Committee of Imperial Defence. They were to investigate allegations as to the efficiency of naval preparation and organization in the Channel command during a particular period, and the peculiarity of the inquiry was that it was retrospective, and thus not strictly within the scope of the duties of the Defence Committee, except in so far as past conditions may react on the situation in the present and the future.

What, then, is the character of a committee which last year passed what was practically a severe censure upon a distinguished flag officer, and which is known to be working through sub-committees on eight other important matters concerning the duties of one or other fighting services or of both of them? What is its constitutional position, and what are its duties? It is, in the first place, a committee of purely advisory character, and has no executive powers at all. Like the cabinet itself, it is not recognized by the law. It came into existence as the consequence of a growing sense of the necessity of placing at the disposal of the Prime Minister the means of obtaining the highest professional advice, and of maintaining, by the record of its secretariat, continuity of policy and change where change is thought to be necessary.

The constitution of the committee is fluid in the sense that the Prime Minister nominates its members, and can increase or diminish their number as he pleases, summoning to his council those who are best fitted to advise upon questions that come up for decision from time to time. The one permanent and definite feature is the secretary. The members of the committee, at the present time, are the Prime Minister and four secretaries of state other than the home secretary.

the first lord of the admiralty, and the chancellor of the exchequer, with the first sea lord and the director of naval intelligence to represent the navy, and the chief of the general staff and the director of military operations representing the army. With these are associated Admiral of the Fleet Lord Fisher, General Sir John French, and Lord Escher, and General Sir Ian Hamilton will join the Committee when he takes up his appointment as general officer commanding-in-chief in the Mediterranean.

The creation of the Committee of Imperial Defence was felt to be a necessity by all who knew the old, bad, extravagant and disastrous system of government by compartments. There was on the one hand the admiralty holding fast to the traditional and insular policy of sea defence for these islands, building up a fleet that was to be supreme, and on the other a war office which dreamed of armistice, army corps, fortifications, and all the equipments of foreign states, and acted just as if the navy did not exist. Five-sixths of our land forces were organized and trained to sit at home, and we were organizing vast bodies of troops which we could neither send abroad nor use at home. There existed a naval and military committee of Defence, which originated with Sir Redvers Buller; and there was a Colonial Defence Committee; and, in addition to these, there existed a vague entity, or non-entity, called the Cabinet Committee of Defence, but none of these organizations seemed to be capable of influencing policy. There was no stability, no consistent doctrine, no serious study of national strategy. Men came and went, school succeeded school, and every new Minister felt inspired by advisers or his own ideas to propound new schemes, while the taxpayer paid the bill.

The War Office Reconstruction Committee, which commonly called the Escher Committee, which consisted of Lord Escher, Lord Fisher, then first sea lord, and Sir George Clarke, now governor of Bombay, saw the necessity of avoiding the evil, by focussing the higher policy of defence, and providing the cabinet with information and advice concerning general preparation for war, whereby it might be able to ensure that money should be spent on both services in accordance with sound strategy, and without overlapping or duplication of services. The recommendation was made in January, 1904, and the committee of Imperial Defence came into existence in its present form, with Sir George Clarke as its secretary, now succeeded by Rear Admiral Sir Charles Ottley. It cannot be said that the committee has brought soldiers to agreement among themselves or with the admiralty on questions of large policy, but it has placed in the hands of ministers the agency for arriving at decisions, and we no longer live in dread of each new war minister seeking an entirely new military policy.

One of the first questions taken up was the really fundamental question, upon the solution of which our whole military organization must depend. Mr. Balfour delivered a very important speech in the House of Commons on May 11th, 1905, in which he explained the conclusions at which the Committee had arrived. Briefly, they were that an enemy would not dare to come with less than 70,000 men, and that such an armada would be in ex-

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him.

His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

If the housekeepers of Canada will use

## WILSON'S Fly Pads

persistently, this peril would be tremendously reduced.

Treme peril of final disaster. Later on Mr. Asquith put the case in this way, that we must consider the 70,000 men the maximum force that could in any conceivable circumstances, escape the vigilance of our naval guard.

When Mr. Haldane assumed office, he said that Mr. Balfour had rendered great service in devising an instrument which should bring admiralty and war office policy into contact with the general policy of the Empire. It was with the approval of the Committee that the forts on the Surrey hills, which had never been of the least use to man or beast, were cut away by foot and branch with many saws. In other places which never had and never could have fired a shot in anger. By the same committee the army scheme was shifted and examined in every part. The invasion question was again considered exhaustively, with conclusions substantially the same as those expressed by Mr. Balfour. On this subject Mr. Asquith delivered a very memorable speech in the House of Commons. The committee has always taken a wide view of our Imperial responsibilities.

It has had under consideration such subjects as the military requirements of the Empire as affected by the defence of India, aerial navigation in view of recent and prospective developments, the Channel Tunnel, fixed and standard of reinforcements for them, and the changing conditions in the Mediterranean. Mr. Asquith said in the House of Commons on Wednesday that sub-committees are now investigating eight different questions, which will subsequently be considered by the Committee of Imperial Defence as a whole. The old Colonial Defence Committee continues its work in connection with the more important committee, and in association with it there was established a new Joint Naval and Military Committee to deal with questions connected with the defence of home ports. In a certain sense these are, of course, only sub-committees working to assist the cabinet. There is also an historical section, doing most useful work. Evidently the Imperial Defence Committee is an institution very much alive.

—Better than any real estate investment on the market—Amalgamated Development company stock.

The oldest vessel in the world afloat and still in active service is believed to be the Danish sloop Constance, which was built in 1723.

## Water Notice

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Victoria Division of Victoria Water District.

(A) The name of Company in full—The Terminal Gravel Company, Limited. The head office—205 Hastings street, Vancouver, B. C. The capital, how divided, showing amount paid up—Capital, \$200,000, divided into 2,000 shares of \$100 each; \$120,000 paid up. (If for mining purposes) Free Miner's Certificate No. Not for mining purposes.  
(B) The name of the lake, stream or source (if unnamed, the description is—Lake on the southeast slope of Mount Wood, Malahat District.  
(C) The point of diversion—On the north side of said lake.  
(D) The quantity of water applied for (in—Dam at south side of said lake and cubic feet per second—Four.  
(E) The character of the proposed works—ditch on north side.  
(F) The premises on which the water is to be used (describe same)—Gravel pit on west of Saanich Island, south of Indian Reserve.  
(G) The purposes for which the water is to be used—Washing gravel and industrial purposes generally.  
(H) If for irrigation, describe the land intended to be irrigated, giving acreage—Not for irrigation.  
(I) If the water is to be used for power or mining purposes, describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return, and if used for power or mining, but can be returned into John's Creek below lake on north side of Malahat mountain, 750 feet approximate difference in altitude.  
(J) Area of Crown land intended to be occupied by the proposed works—

(K) This notice was posted on the 28th day of July, 1910, and application will be made to the Commissioner on the 28th day of August, 1910.

(L) Give the names and addresses of any riparian proprietors or licensees, who or whose lands are likely to be affected by the proposed works, either above or below the outlet—Esquimalt & Nanaimo Railway Company.  
Attach copy of such parts of the Company's memorandum of association as authorize the proposed application and works.

(M) To construct and operate works, and to supply and utilize water under the provisions of the Water Act, 1909, and to apply for, receive and enjoy all powers and privileges authorized to be conferred on any Company under the provisions of the said Act.

Application for Storing Water. (To be attached to Form 1, 2 or 3 as may be required.)

(N) The place of the proposed reservoir for storing—Lake on the southeast slope of Mount Wood, Malahat District.  
(O) The means by which it is proposed to store the water—Dam at south end of lake.

(P) The area of the reservoir site or sites at each foot in depth above the outlet—(1) 607,200 (2) 111,500 (3) 765,700 (4) 147,100 (5) 86,117 (6) 99,225 (7) 822,301 (8) 818,472 (9) 86,117 (10) 1,051,488.

(Q) How it is proposed to acquire the land necessary for the purpose—By arrangement with owners.  
(R) Approximately the number of acres intended to be impounded—19.2.

(S) Whether it is proposed to lower the water in any natural lake or standing body of water, and, if so, then—  
(1) The anticipated extent of the lowering—  
(2) The means proposed to be adopted to lower and re-fill—  
(3) The nature and character, in detail, of the works proposed to be constructed to provide for the discharge and penning back of the water—  
Not intended to lower.

THE TERMINAL GRAVEL COMPANY, LIMITED.

## CIVIC NOTICE.

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To grade, drain and pave with asphalt Government street, from Belleville street to Michigan street, and to construct boulevards (including manholes), curbs and gutters, on both sides of said street, between Belleville street and Superior street, and the cost of lateral connections, sewers, surface drains and water mains, and moving poles if necessary.

2. To grade, drain and macadamize with bituminous Government street, from Niagara street and Dallas road, and to construct gutters on both sides of said street, including the cost of surface drains and sewer connections, and water mains and moving of poles, if necessary.

3. To widen sidewalks and to construct curbs and gutters on both sides of Yates street, between Douglas street and Blanchard avenue.

4. To construct curbs and gutters on both sides of Quadra street from Blanchard avenue to Pandora avenue.

5. To pave with asphalt Vancouver street (roadway 32 feet wide), including cost of sewer, surface drain and water laterals.

6. To grade, drain and pave with asphalt Fort street, from Yates street to St. Charles street, including cost of gutters on both sides of said street, also all necessary connections to sewers, surface drains and water mains.

7. To grade, drain and pave with asphalt between Vancouver street and Moss street (roadway 30 feet wide), and to construct curbs, gutters and boulevards on each side of Rockland avenue between Vancouver and Cook streets, including cost of sewer and surface drain laterals.

8. To pave with asphalt Richardson street (roadway 32 feet wide) between Cook street and Douglas street, including cost of gutters on both sides of said street, also all necessary connections to sewers, surface drains and water mains.

9. To widen, grade and rock surface Foul Bay road from Fairfield road to where Foul Bay road crosses Section 8, and that the said work shall be carried out in accordance with the provisions of the Local Improvement Act, by-law, upon each and every of said works of local improvement, and that the cost of such improvement shall be chargeable to the property owners of the lots benefited by the improvement.

10. To amend the provisions of the City Engineer and City Assessor having reported to the Council in accordance with the provisions of Section 1 of said by-law, upon each and every of said works of local improvement, and that the cost of such improvement shall be chargeable to the property owners of the lots benefited by the improvement.

11. To amend the provisions of the City Engineer and City Assessor as aforesaid having been adopted by the Council.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the lots or portions of the lots situated upon the property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by-law in that behalf regulate and determine.

WELLINGTON J. DOWLER.

Full basement on cement foundation, piped for furnace, electric light and telephone. About 15 minutes walk from the Post Office.

### TELEGRAPH LINE TO STEWART.

Hazelton, Aug. 31.—Cruisers are out locating a route from the government telegraph line along the Skeena to Stewart on Portland Canal. It is expected this connection for Stewart will follow up the Kitsumkalum valley, across the valley of the Naas to Alice Arm, and from there to Portland Canal and up the canal to Stewart. Construction has not been authorized and probably will not be until the report of the cruisers is in, but there is likelihood that the wire will be put up some time this fall.

Mrs. H. C. Winch and three children were passengers on the steamer Omicame, returning home after a visit to Vancouver and Victoria.

The second drive of beef cattle for P. Burns & Co., amounting to 470 head, is at hand, and will be turned into the hills until the cold-storage plant is ready.

### VISITING THE CARIBOO.

Lillooet, Aug. 31.—Wm. F. Robertson, provincial mineralogist, arrived by Lytton stage Friday night. He will make an extended visit to the mining properties on Bridge river and Cadwallader creek and other localities. Mr. Robertson has not visited this district before and expects to find a very interesting country from both a geological and mining point of view. The contact between the coast granite and the interior slate formation has not yet been examined and it is this contact that forms a promising field for the prospector.

### DAWSONITES COMING SOUTH.

Dawson, Aug. 19.—A number of well-known Dawson people will leave on the Dawson. Among them are Judge and Mrs. C. D. Macaulay and son Bob, who go outside for the winter; Mrs. Alexander Shaw and daughter and sons, who will go to Seattle; Miss Gifford, daughter of Mr. and Mrs. E. Gifford; A. C. Anderson and daughter Gudrun for Vancouver; and Mrs. W. A. Harrington and her daughter, Mrs. Taylor.

### CRIPPLED WITH LAME BACK

This Result of Long Standing Kidney Disease Was Overcome by DR. CHASE'S KIDNEY-LIVER PILLS

"This letter gives you some idea of the definite and certain results you obtain by using Dr. A. W. Chase's Kidney and Liver Pills for kidney disease."

This medicine is very prompt in action and very direct in effecting cure. You do not need to keep up the treatment long before you find most marked improvement.

Mrs. Richard Patterson, Haldimand, Gaspe Co., Quebec, writes: "I want to tell you that I was cured of kidney disease of long standing by the use of Dr. Chase's Kidney and Liver Pills."

I used to suffer a great deal not knowing just what was the cause of the trouble and got so bad that I was almost crippled with lame back, and less than three boxes made the cure complete. I have never had a sore back since and believe the cure to be lasting."

Backache, headache, bodily pains, scanty, painful urination, deposits in urine after standing, feeble appetite, indigestion and irregularity of the bowels are among the symptoms which warn you of serious trouble from kidney disease.

You can be practically certain that Dr. Chase's Kidney and Liver Pills will help you and help you quickly. Make the test for yourself to-day. One pill a dose, 25 cents a box, all dealers; or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

The refinery for the product of the oil wells of the Amalgamated Development company at the Katalla oil fields is already under construction. Invest now.

## LATE POTATOES ARE DAMAGED BY FROST

Farmers in Delta Report Considerable Losses—Busy Harvesting

New Westminster, Aug. 31.—The sharp frost which was experienced all through the Fraser valley, has had a serious effect on the late potato crop, according to farmers from along the river. It is very unusual, stated one farmer, at this time of the year, and his knowledge has not occurred at this season of the year in the past thirty years. On Thursday morning the thermometer registered 36.8 and farmers on looking at their potato crop that morning began to wonder if it would be the same here as conditions are said to be in Alberta this year, and that on the menu card potatoes would be listed as desert. The frost also affected the late grains, but this will not cause any serious loss as generally the late grain are kept for feed on the farms instead of shipping.

All through the valley the farmers are busy harvesting and although this has been one of the driest years in the history of the province the grain crop has not been materially affected. All the threshing machines that can be gotten are busy and harvest hands are at a premium. The great amount of railway construction that has been commenced this year in the province has resulted in a dearth of laboring men for farm work. A large number have also left the province, many going to the prairie provinces and to the Yukon.

## MANY FATALITIES OCCUR AT ALBERNI

Child Burned to Death—Drowned in Great Central Lake—Pottinger's Death

Alberni, Aug. 31.—The four-year-old son of Ernest Woodward, McCoy lake, whilst playing with some matches, set fire to his clothes and was so severely burned about the body before his screams attracted the attention of his parents that he died within a few hours of the accident on Sunday, 21st inst. Dr. Morgan was hastily summoned and did all in his power to save the life of the young lad, but he was beyond human aid. The funeral took place on Monday the 2nd at 3 p. m., and was attended by a large number of grieving and sympathizing friends.

While discharging freight at Alberni Harry Pottinger, a member of the crew of the steamer Tees, was caught in the cable and dragged around the wharf before the machinery could be stopped. Pottinger had several bones badly crushed and it was soon learned that his injuries were likely to prove fatal.

The injured man was taken to the home of Andy Watson, where a temporary hospital was provided and Dr. Hilton did all that was possible to relieve the injured man's suffering. He remained in a state of semi-consciousness from the time of the accident until his death, which occurred on Saturday morning at 4 o'clock. The remains were shipped to Victoria on the Tees.

Joe Ross, proprietor of Joe's restaurant, Alberni, was drowned in Great Central lake last Monday afternoon. Ross, in company with Master Ralph Bernard, was trolling for trout in a Peterboro canoe, with a sail up, and a gust of wind suddenly striking them, capsized the frail craft and precipitated both into the lake. The boy seized hold of the canoe and held on. Ross was apparently struggling to reach the canoe, but could not make it. It was afterwards discovered that he had become entangled in both trolling lines, which prevented him from reaching the canoe. After his companion had sank below the surface of the water the boy held to the lines and finally drifted ashore. The lines dragged heavily and thinking he had a big fish in tow, the lad pulled them in, bringing the body of Ross to shore.

On Friday night, August 26th, the annual meeting of the Alberni Football Club was held in the court house, with President E. M. Whyte in the chair. After the reports of the retiring officers, showing the club to be in a prosperous condition, with a good balance in the bank, the following officers were elected for the ensuing year: President, S. H. Fay; vice-president, E. H. Bishop; secretary-treasurer, D. J. Stark; advisory committee, E. M. Whyte, S. H. Fay and D. J. Stark. Delegates to league meeting, F. H. Bishop and D. J. Stark. Six new members were added to the club's membership list. The election of a club captain and vice-captain were left over until after the first practice, which has been called for Wednesday, the 31st inst.

Harry Bridgman, Vancouver, is a visitor in Alberni, the guest of G. A. Spencer.

R. M. Palmer returned on Wednesday from a visit to Victoria, Vancouver and Prince Rupert.

The wedding of Mr. Thomas McKinnon, of the well-known contracting firm of Forrest & McKinnon, to Miss Ethel Gwyer, both of Alberni, took place on Friday last, Rev. Prof. Carstairs performing the ceremony in St. Andrew's manse.

A meeting of the Alberni Athletic Club is being held in the court house to arrange a programme for Labor Day.

## CHILLIWACK BUILDS MORE CONCRETE WALKS

Public Improvements Being Carried Out—Plans for New City Hall

Chilliwack, Aug. 31.—More concrete sidewalks were ordered at last meeting of the city council. The committee of management of St. Thomas' church petitioned for permission to construct a four-foot plank sidewalk around the church property in Mountain View. The petition was referred back to committee with a request that they make their petition for at least a five-foot walk, the four-foot walk being considered too narrow for the needs of the people.

Property owners on the south side of Westminster street petitioned for the construction of a concrete sidewalk from the corner of Young street to the corner of Nowell street. The required number of property owners being found to be on the petition, the request was granted.

The chairman of the board of works was given authority to have the sidewalk from Mrs. Lickman's residence on Main street to the school widened.

The purchase of rock property for use on city streets was left in the hands of Aldermen Davis and Boucher to arrange.

The Chilliwack Agricultural Association asked for the extension of a sidewalk from its present terminus on Spadina avenue to the entrance gate at the new fair grounds.

This was practically turned down owing to the fixed policy of the city to require property owners to bear the expense of the first walk in front of their premises and also for the reason that the expense of opening the streets to the fair grounds was all that was taken into consideration in the city estimates.

Upon a request from J. Hinchliffe, secretary of the hospital board, for the appointment of a director from the council to represent them upon the board, was responded to by the appointment of Mayor Munro for the incoming year.

The appointment of Thomas Hooper of Vancouver, as architect for the city hall, was endorsed by the board, the plans he submitted were approved of and a by-law for the purchase of a site completed.

3. A Henderson, the city engineer, who has been working on a new map for the city, reported his work completed and asked for their sanction, which was granted, and the mayor and clerk authorized to sign them.

The work as presented showed a very exhaustive and detailed map of all new subdivisions and allowed for all extensions of boundary limits.

## PRINCE RUPERT AND ITS LIGHTING SCHEMES

Motion to Proceed With the Temporary Plans is Voted Down

Prince Rupert, Aug. 31.—The question of the city lighting problem came up again before the city council at its last meeting, and was once more freely discussed. The engineer's report showing the cost in detail of establishing the plant required for the temporary scheme of the city and door factory was presented through the streets, works and property committees.

The total cost was figured out at \$11,363, being an increase of \$2,400 over the estimate made in the report of August 13th for a 60 kilowatt plant.

The operating cost was put at \$23,328. Street lamps consumption, \$7,800 kilowatt hours winter and \$3,700 summer, or 131,400 per year. Consumers consumption was estimated at 114,575 kilowatt hours winter, and 49,275 summer, or a total of 164,250 kilowatt hours per annum, and the city engineer estimated the probable revenue to amount to \$29,565 at 10c per kilowatt hour.

Ald. Hilditch moved that the cash and door factory scheme be proceeded with forthwith. Ald. Smith, however, was strongly in favor of waiting to consider fully the alternative propositions of the private firms offering to supply the city with light.

Mr. Palmer stated that he had instructions from the firm to withdraw all negotiations if the matter was carried over for another week.

Ald. Lynch suggested that it might be the wisest plan for the city to go with the temporary scheme and while using it to consider thoroughly the alternative and more lasting schemes. Ald. McIntyre supported this view.

Ald. Naden thought that as the city had worried about without proper light last year it could very well wait a little longer rather than plunge at any proposition in a hurry.

"What would be the cost to the city of a city-owned plant equal to that offered through Mr. Palmer?" asked Ald. Pattullo, and Mr. Burns, requested by the city engineer to give a rough estimate, suggested \$4,000 for material but not including installation.

The mayor put the motion to the council that the lighting committee's report be adopted and the temporary scheme proceeded with. On a show of hands being taken the mayor declared the motion lost and the council adjourned to take up the matter again at next meeting.

## BRITISH-AMERICAN TRUST CO., LTD.

Broad and View Streets.

The walls, ceiling and floors have all been under the painter's brush. Not the old style kalsomine that peels off every time you close a door, but with first class enamel paint that will last for years. The lot is 55x110; highly situated. This home has just been hand-painted inside and out. The walls, ceiling and floors have all been under the painter's brush. Not the old style kalsomine that peels off every time you close a door, but with first class enamel paint that will last for years. The lot is 55x110; highly situated.

The house is in thoroughly good repair, and newly furnished throughout, including glass, china and kitchen utensils.

The reason that this property is up for sale is, that the owner has to leave to attend to urgent business in England.

PRICE IS \$14,000.

Half cash, remainder at 6 per cent. for 6 years. This includes furniture, or if desired can be purchased without furniture.

## BRITISH AFRICA.

The valuable work that is being done under the auspices of the colonial survey committee is shown in a report on the surveys which have been carried out in British Africa, Ceylon, Cyprus, Fiji, Jamaica, Trinidad, and British Honduras. In British Africa alone during the past year 45,500 square miles have been topographically surveyed.

The most important areas are: Cape Colony, 15,292 square miles; Orange River Colony, 11,574 square miles; Transvaal, 9,900 square miles; East Africa, 4,119 square miles; Uganda, 8,855 square miles, and northern Nigeria, 1,250 square miles.

Rough surveys and explorations have been carried out in the Anglo-Egyptian Sudan, the Gold Coast, and Southern Nigeria; whilst the work of measuring an arc of meridian in Uganda was completed by the joint Anglo-Congolese party in February, 1909.

One interesting feature of the operations in British Africa is the mapping out of a manoeuvre area of some 8,500 square miles in the region of Pretoria.

JUDGMENT DELIVERED  
IN INSURANCE CASE

Defendant Successful in Pruden-  
 tial Insurance Co. vs. Hard-  
 wick Action

Judgment has been handed down by  
 Judge Lammiman in the county court  
 case of the Prudential Life Insurance  
 Company, versus Hardwick, an action  
 which, at the time of trial, occasioned  
 considerable interest in insurance cir-  
 cles.

The judgment follows:  
 "The plaintiff company sues for  
 \$328.65 being the amount of a promiss-  
 ory note, with interest, given by the  
 defendant in payment of the premium  
 on a \$10,000 policy on the life of the de-  
 fendant.

"I think the defendant is entitled to  
 succeed on the short ground that, the  
 plaintiff's agent misrepresented a ma-  
 terial fact to the defendant, and there-  
 by induced him to apply for insurance  
 and sign the note."

"The action is dismissed with costs."  
 "The action is dismissed with costs,"  
 Herbert Robertson appeared for the  
 plaintiff company and H. H. Shandley  
 for the defendant.

"The action is dismissed with costs,"  
 Herbert Robertson appeared for the  
 plaintiff company and H. H. Shandley  
 for the defendant.

## ELECTRIC RAILWAY

## EMPLOYEES' PICNIC

All in Readiness for Grand Event  
 at Oak Bay Park on Satur-  
 day Next

Given good weather, the sixth annual  
 picnic under the auspices of the em-  
 ployees of the local branch of the B.  
 C. Electric Railway Company, to be  
 held at Oak Bay park on Saturday  
 afternoon next, promises to be con-  
 spicuously successful. An energetic  
 committee has been working hard for  
 the past few weeks making arrange-  
 ments for the event and the members  
 report that all is now in readiness for  
 the same.

A very fine programme of sports has  
 been arranged, and this year, thanks  
 to the generosity of the business men  
 of the community, the entertainment  
 committee have been able to offer the  
 most attractive list of prizes at any  
 picnic held by the company.

A feature of the programme will be a  
 baseball match, Bankers vs. B. C. Elec-  
 tric railway employees. The latter team  
 has been practicing hard and a fine  
 game is anticipated.

WESTERN RATES INQUIRY.  
 President of the Santa Fe Demands  
 an Increase.

Chicago, Aug. 31.—President E. P.  
 Ripley of the Atchafalca, Topeka &  
 Santa Fe railroad, and attorneys for  
 the Santa Fe system, were before the  
 interstate commerce commission yester-  
 day at the resumption of the hear-  
 ings in the western rate cases before  
 Special Examiner Brown.

Ripley declared if the rate increases  
 the roads have asked for and planned  
 is not permitted his road still would  
 be able to pay operating expenses but  
 that dividends would suffer. He de-  
 clared that the earnings of the Santa Fe  
 in the last fiscal year had increased  
 \$10,250,000 and that operating expenses  
 had increased \$10,500,000.

"Ordinarily we can increase the earn-  
 ings enormously without employing  
 additional labor," he said. "The last  
 two years, however, have been excep-  
 tions to this rule."

Attorney Atwood asked: "Then for  
 every 15 cents of earnings going to la-  
 bor, 75 cents goes to vested interests?"  
 President Ripley corrected him by  
 saying that sixty per cent of the earn-  
 ings goes to labor. He predicted that  
 there would be a big decrease in earn-  
 ings the coming year. When asked  
 why, Ripley replied that he was not a  
 political economist. He declared that  
 less freight is being moved now for  
 every dollar invested in labor than in  
 many years past.

CREDIT IS INSURGENTS.  
 Their Leader Says Progressive Legis-  
 lation Is Their Work.

McCook, Neb., Aug. 31.—Admitting  
 that President Taft's campaign letter  
 is an able document, Congressman  
 Norris, leader of the insurgents in the  
 House, declares the progressives were  
 really responsible for most of the legisla-  
 tion about which the president talked.

"Taft's campaign statement is an  
 able document," said Norris. "But it  
 should be remembered that to the de-  
 spised insurgents of the House and  
 Senate is due the credit for all the pro-  
 gressive legislation of the last con-  
 gress. The people should remember  
 that the Cannon-Aldrich machine is do-  
 ing all it possibly can to defeat those  
 congressmen who made it possible for  
 Taft to make good."

## LEGISLATIVE BRIBERY.

Chicago, Aug. 31.—Charles H. Sim-  
 mons, a new witness in the trial of Lee  
 O'Neill Browne, charged with legisla-  
 tive bribery in connection with the  
 election of William Lorimer to the  
 United States senate, sprang a sensa-  
 tion at the hearing yesterday.  
 Simmons testified that he saw Brown  
 and State Representative C. A. White

A Magnificent Collection  
Of the Very Latest Ideas in French, Swiss and British  
Table Covers

Never before in the history of this store have we been fortunate enough to offer the equal of this col-  
 lection of Table Covers. We have just unpacked a shipment of some of the daintiest French, Swiss and  
 British creations it has ever been our good fortune to place price tickets on.

These include the very newest ideas in tapestry, serge and printed creations, and show what is latest  
 and most favored in the fashion centres of the world. Tapestry table covers of smart design are now  
 used very extensively by the leading homekeepers of the land.

We have received these direct from the best factories—factories famed for quality, and who employ  
 the best designers in the world. You are assured the best both in quality and design.

Don't miss them—come in to-day.

## Liberty Art Table Covers From 50c Each

One of the most interesting lines of Table Covers included in this latest shipment is a lot of those most popular Liberty  
 Art creations. Our former offerings in these have proved most popular with Victorians, and these are so unusual in design  
 that we know they'll be even more welcome than the earlier shipments.

Come in and see the attractive designs and the big choice offered. You'll like them. And you'll also be delighted with  
 the price range and the values, for we have them priced from, each, 50c.

## SWISS TAPESTRY

The Swiss Tapestry Table Covers  
 are splendid, low-priced styles, especial-  
 ly desirable for bungalow. They come  
 in attractive patterns, and in red and  
 green and green and red combinations.  
 These are washable and a splendid in-  
 expensive table cover.

Size 54 in. x 54 in. at ..... \$1.75

Size 72 in. x 72 in. at ..... \$3.50

Just the thing for lunch room, break-  
 fast room or bedroom.

## WOOL TAPESTRY

These are rich and handsome table  
 covers, in wool tapestry—solid color  
 centres with Oriental borders, and are  
 reversible, giving on the reverse side  
 an attractive all-over Oriental design.  
 Splendid quality.

Size 2 x 2 yards at ..... \$8.50

Size 2 x 2 yards at ..... \$7.00

Similar style with Oriental pattern  
 and colorings at a lower price.

Size 2 x 2 yards at ..... \$5.50

Size 2 x 2 yards at ..... \$6.50

## FRENCH TAPESTRY

Here is something handsome in a  
 French Tapestry Table Cover. The  
 pattern is an Oriental effect on a grey  
 ground and makes a very rich creation.  
 Size 2 x 2 yards at ..... \$6.50  
 Size 2 x 2 yards at ..... \$8.00

Another line of French tapestry  
 cloths are shown in these. Quality is  
 very fine. Oriental effects.

Size 2 x 2 yards at ..... \$7.50

Size 2 x 2 yards at ..... \$9.50

Size 2 1/2 x 3 yards at ..... \$10.50

## FRINGED COVERS

Here's a fringed tapestry table cover  
 for someone looking for an attractive  
 low-priced table cover. In crimson and  
 gold or green and gold.

Size 2 x 2 yards at ..... \$1.85

Size 2 x 2 yards at ..... \$3.75

Size 2 x 2 yards at ..... \$5.00

## FRENCH VERDURE

This is a rich and very attractive pat-  
 tern in a splendid quality French tap-  
 estry. It's a table cover style you'll  
 like.

Size 1 1/2 x 1 1/2 yards at ..... \$3.00

Size 2 x 2 yards at ..... \$5.50

Size 2 1/2 x 2 yards at ..... \$7.50

Size 2 x 3 yards at ..... \$8.50

## ALL-WOOL SERGE COVERS

Here is something nice for those who  
 are partial to solid color effects. These  
 are excellent quality and very stylish in  
 appearance. In either dark green or  
 crimson.

Size 2 x 2 yards at ..... \$4.50

Size 2 x 2 yards at ..... \$5.50

Size 2 x 3 yards at ..... \$6.50

## PERSIAN DESIGNS

Very attractive Persian designs on a  
 splendid quality French Tapestry. A  
 stylish table cover.

Size 1 1/2 x 1 1/2 yards at ..... \$3.50

## New Liberty Bed Spreads Just in To-day

A Liberty Art Bedspread certainly adds greatly to the attractiveness of the bedroom. They give the bed a "fin-  
 ished" appearance not possible in the ordinary bedspread.

And these are easily priced—marked so that anyone may own one, or more. Block printed designs in mauve and  
 green and pink and green, etc. Size 2 1/2 yards by 3 yards at \$5.00.

A better quality in similar designs on a splendid quality taffeta. Size 2 1/2 x 3 yards at \$3.50.

## Have You Seen These Down Quilts?

An advance shipment of the handsomest Down Quilts we have shown. If you haven't inspected these newest additions  
 we strongly advise an early visit to the second floor. The season is almost upon us, and here's an opportunity to secure  
 something unusually nice. Excellent as wedding gifts.

See These. 6 x 5 feet, at \$13.50

Here is a popular-priced  
 down quilt and a style that'll  
 certainly please. Centre  
 panel of small design with  
 Persian border. The reverse  
 side in solid color. We have  
 these in mauve, green or  
 blue.

This is the most attractive  
 style, and the price is very  
 reasonable, at

\$13.50

White was recalled to the stand and  
 was asked if he had received \$500 from  
 Brown at the Briggs House. He re-  
 plied that he had not.

Catherine Wood, owner of an East  
 St. Louis cigar stand, testified that  
 White told her he was writing a his-  
 tory of the Illinois legislature and that  
 he would get money out of Brown or  
 "show the reason why." She testified  
 that she warned him he would get into  
 trouble and that White replied he was  
 able to take care of himself, as he had  
 killed a negro and a white man in Ten-  
 nessee.

This is a large quilt, filled  
 with best down and made in  
 best possible manner.

## PANTAGES THEATRE.

The Fisher Road Show, an organized  
 vaudeville company, is more than  
 pleasing a very big patronage by the  
 Pantages this week. There isn't a  
 single weak spot on the whole pro-  
 gramme, while some of the fea-  
 tures are notably superior. The bill in-  
 cludes the Wade sisters, the Marinette

trio, Lindell and Wren, Harry

and the regular house attraction
